EDUCATION

University Of Dayton

Dayton, OH

MASTER OF SCIENCE IN BUSINESS ANALYTICS

Sep 2023 – Jun 2025

Relevant Coursework: Statistical Analysis for Business Decisions, Project Management for Professionals, Data Management for Analytics, Marketing Analytics, Advanced Business Intelligence, Introduction to Machine Learning, Capstone Project in Analytics

NMIMS Global Access School for Continuing Education

Mumbai, India

DIPLOMA IN BUSINESS MANAGEMENT

Jan 2021 – May 2022

Relevant Coursework: Management Theory and Practice, Financial Accounting & Analysis, Decision Science, Operations Management, Business Economics, Strategic Management, Marketing Management

Savitribai Phule Pune university

Pune, India

BACHELOR OF MECHANICAL ENGINEERING

Aug 2016 – May 2020

WORK EXPERIENCE

Jagdamba Metal Industries

India

OPERATIONS ANALYST

Jul 2022 – Jul 2023

- Increased production throughput by 15% by reconfiguring machinery workflows, streamlining end-to-end operations
- Achieved 95% inventory tracking accuracy by designing a manual system, significantly reducing waste and overstock
- Reduced product defects by 75% and cut weekly turnaround time by 5 hours through root cause analysis and corrective actions
- Optimized operational efficiency by collaborating with production and inventory teams to gather requirements and streamline processes

Jagdamba Metal Industries

India

OPERATIONS COORDINATOR

Jun 2021 – Jun 2022

- Achieved 100% on-time delivery by analyzing operational workflows and coordinating cross-functional scheduling to resolve delays
- Improved resource utilization by 15% and increased output by 10% through leading daily logistics planning for equipment and manpower
- Facilitated seamless operations by developing a scheduling system, which reduced downtime significantly by 5%.
- Strengthened team collaboration by implementing communication strategies, enhancing overall operational outcomes by 10%

ACADEMIC PROJECTS

STARTUP GROWTH & INVESTMENT DASHBOARD — *Python, Dash, Plotly, Pandas*

[GitHub](#)

- Enhanced investment visibility and decision-making by monitoring \$12.3T+ in funding across 10 countries and 8 sectors, improving stakeholder analysis speed by ~60% through an interactive BI dashboard and visualizations

TELECOM CUSTOMER CHURN ANALYSIS — *R, Classification Models, AUC/ROC Evaluation, EDA*

[GitHub](#)

- Delivered business recommendations to strengthen customer retention efforts, achieving best model performance using Logistic Regression (AUC: 0.8465, accuracy: 80.28%)

HOSPITAL MANAGEMENT SYSTEM — *Lucidchart, Figma, UML Modeling, BRD/FRD, RACI*

- Designed a Hospital Management System to streamline clinical and administrative workflows and enhance cross-functional accountability, by using Lucidchart for UML diagrams, Figma for wireframes, and RACI matrix for stakeholder responsibility mapping

TECHNICAL AND PROFESSIONAL SKILLS

- Business Analysis & Documentation:** BRD, FRD, SRS, Requirements Gathering, Process Mapping, Use Case Modeling, User Stories
- Data Analysis & Modeling:** Excel (PivotTables, VLOOKUP, What-If Analysis), SQL, Python, R (EDA, classification models)
- Data Visualization & Reporting:** Power BI, Tableau, Plotly, Dash (interactive dashboards, KPI tracking)
- Machine Learning:** Logistic Regression, Decision Trees, Random Forest, Gradient Boosting, Feature Engineering, Model Evaluation
- Tools & Platforms:** Jira, Confluence, Lucid chart, Visio, Figma, Microsoft Office Suite
- Methodologies:** Agile (Scrum), Waterfall, Functional Specifications, User Stories, Requirements Elicitation, Stakeholder Engagement
- Soft Skills:** Logical Reasoning, Analytical Resolution Skills, Cross-functional Collaboration

CERTIFICATIONS

Google Data Analytics Professional Certificate

[Coursera](#)

- Applied SQL and R to clean, analyze, and visualize data; delivered insights aligned with business goals using Excel and Tableau

Google Business Intelligence Professional Certificate

[Coursera](#)

- Built dashboards and data models using SQL and Tableau; practiced ETL workflows and BI techniques to support operational decision-making
