Bellevue, WA | +19472270430 | ashwiniapatil0207@gmail.com | [LinkedIn](#)

Clinical Data Manager with 6+ years of experience overseeing the entire data management lifecycle from study start-up through close-out, across complex global clinical trials, including oncology, respiratory, cardiovascular, ophthalmology, diabetes and metabolic disorders. Proficient in data review, SAE reconciliation, vendor data reconciliation, UAT testing, and regulatory compliance. Proven leader with a track record of reducing data errors, optimizing processes, and ensuring high-quality data to meet study needs and deliverables. Committed to fostering cross-functional collaboration among clinical, biostatistics, and regulatory teams while transforming complex data into actionable insights that drive trial success.

EDUCATION

Oakland University, Michigan - Masters in Computer Science

May 2025

Dr. D. Y. Patil Biotechnology & Bioinformatics Institute, India - M. Tech (Integrated) Biotechnology

May 2017

TECHNICAL SKILLS

EDC Systems: Medidata Rave, Oracle Clinical, InForm, Veeva Vault EDC

Data Tools: Power BI, Tableau, J-Review, Pinnacle 21, Excel VBA

Documentation: Data Management Plans (DMP), Clinical Data Review Plans (CDRP), eCRF Completion Guidelines, Edit Checks specifications, Organization Specific SOPs, eTMF Documentation

Non-eCRF/Vendor Data Reconciliation: Lab, PK, ECG, IVRS, FeNO, Imaging, Demographics, ePRO(eCOA)

Compliance and Standards: FDA, EMA, ICH-GCP, CDISC (SDTM, ADaM)

WORK EXPERIENCE

Clinical Data Specialist | IQVIA | Astra Zeneca

Aug 2022- Aug 2023

- Led data management activities across global Phase II/III oncology studies, ensuring 100% on-time study milestones while driving a 68% reduction in discrepancies through proactive issue resolution.
- Authored Data Management Plans, Data Review Plans, and eCRF guidelines ensuring 92% data accuracy rate.
- Directed SAE and third-party data reconciliations with integrated management and cleaning plans, eliminating 98% of data discrepancies and achieving 100% regulatory compliance.
- Resolved 1,000+ queries weekly through a strategic resolution plan, driving a 30% improvement in query turnaround time.
- Designed Power BI dashboards for 10+ studies, ensuring real-time tracking of clinical trial progress, compliance metrics, and data validity for streamlined reporting.

Clinical Data Manager | Tata Consultancy Services | Roche

Jan 2021 – Aug 2022

- Developed a centralized tracking system for data issues that improved stakeholder communication, this initiative resulted in a 30% faster query resolution time and is now utilized by over 15 team members.
- Led end-to-end data management activities including eCRF design, UAT testing, migration activities, through Database Lock.
- Coordinated with cross-functional teams for data inconsistencies, and ensured protocol-aligned data deliverables.
- Provided data quality oversight by proactively participating in DQRP meetings and resolving discrepancies to maintain data accuracy across clinical studies.
- Identified critical data points early in the study, such as dosing accuracy, concomitant medication, visit window checks and implemented risk mitigation strategies to ensure protocol compliance and data integrity.

Clinical Research Coordinator | Ardent Clinical Research Services

May 2019 - Jan 2021

- Achieved 120% participant recruitment targets across Phase II/III trials within designated timelines.
- Ensured 100% protocol compliance by obtaining informed consent and educating participants on study requirements.
- Monitored patient visits, documented AEs/SAEs, and maintained adherence to protocol-specified procedures.
- Trained and mentored site staff on EDC best practices, resulting in a 30% reduction in data entry errors and protocol deviations.

Clinical Research Coordinator | Niramaya Hospital Pvt Ltd

Oct 2017- April 2019

- Oversaw regulatory documentation and compliance for multiple studies, ensuring 100% alignment with FDA, ICH-GCP.
- Reported and tracked SAEs within 24-48 hours of occurrence, ensuring regulatory compliance and enhancing patient safety.
- Coordinated IRB submissions and ensured that all study-related documents met regulatory and compliance requirements.

PROJECTS

- **Patient Visit Automation:** Built Excel macro tool to streamline multi-study visit scheduling.
- **QC Analytics Dashboard (Tableau):** Centralized QC performance metrics to drive team accountability.
- **Adverse Event Tracker (Power BI):** Created Power BI system to flag and escalate serious safety events in real time.
