 Kolkata, India

Summary

Aspiring Data Scientist with strong skills in Python, SQL, and data analysis. Experienced in data cleaning, visualization and building machine learning models using tools like Pandas, Scikit-learn, and Matplotlib.

Skills

Python, SQL, Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel, Data Analysis, Data Visualization, Machine Learning, Statistics, Jupyter Notebook, Data Cleaning

Education

B.P.Poddar Institute of Management and Technology	2023 – 2027
Bachelor of Computer Applications	Kolkata, India
Aditya Birla Vani Bharati	2020 – 2022
Higher Secondary Education	Kolkata, India

Experience

Data Science Intern	Jun 2025 – July 2025
Unified Mentor	
- Analyzed Netflix viewing data using Python, focusing on content types, genre distribution, and release trends. - Used Pandas, Matplotlib, and Seaborn for data cleaning and visualization. - Created a Power BI dashboard to present key findings interactively.	

Projects

Virat Kohli Performance Analysis–

- Analyzed Virat Kohli's match data using Python and Pandas.
- Visualized runs, averages, and trends across ODI, T20, and Test formats.
- Used Matplotlib and Seaborn to create clear performance charts.
- Gained real-world experience under professional mentorship and added to GitHub portfolio.

COVID-19 Clinical Trials Data Analysis

- Cleaned and analyzed real-world COVID-19 clinical trials dataset using Python
- Identified missing values, removed duplicates, and categorized intervention types
- Created bar charts and pie charts to visualize top countries, organizations, and drug categories.
- Presented insights through visual storytelling in notebooks and final PDF report.
