EXPERIENCE

Capgemini, New York, NY | March 2022 - January 2025

Software Engineering Consultant – Generative AI & Backend Systems

- Led development of an enterprise-grade RAG chatbot backend using FastAPI, MongoDB Atlas Vector Search, and Google Cloud, enabling company-wide access to AI-powered insights from internal data.
- Designed and implemented robust data ingestion and retrieval pipelines for production RAG systems, including unstructured multimodal (PPT) ETL, metadata schema design, retrieval evaluation, and end-to-end query lifecycle modeling.
- Improved LLM performance and efficiency by optimizing token usage, implementing input guardrails, summarizing chat history, and refactoring asynchronous MongoDB retrieval logic—reducing latency by ~25%.
- Delivered Generative AI solutions across AWS, Azure, and GCP for over five client MVPs and POCs in the financial sector; recognized for consistent delivery excellence.

Courant Institute of Mathematical Sciences, New York, NY | October 2019 - May 2020

Technical Assistant – Helpdesk Team

- Provided front-line technical support for desktop and laptop computers for Courant faculty and staff
- Maintained computer labs, printing, and classroom AV facilities

EDUCATION AND CERTIFICATIONS

New York University, College of Arts and Science, New York, NY

BA, Computer Science, Game Design Minor | September 2018 - January 2022 | GPA: 3.635

CompTia Security+ | October 2025

SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL, Lua

Frameworks & Libraries: React, Next.js, Node.js, Express, FastAPI, Streamlit, Pandas

Tools & Platforms: Git, Docker, Jenkins, CLI, SQL/NoSQL & Vector Databases, AWS/GCP/Azure

Other: AI Application Development, Cloud Engineering, RESTful APIs, Agile Methodologies, OOP

PROJECTS

Dream-Diary - Node.js, Express, Passport.js, Bootstrap, MongoDB, Heroku

- Traditional web app for saving and documenting your dreams
- Comprehensive backend tooling with Express, MongoDB, and authentication with [Passport.js](#)

Regicide-Clone - Godot, GDScript

- Clone of cooperative/solo fantasy card game Regicide made using the Godot Game Engine
- Made use of Godot features to implement the Observer, State, and Type Object software patterns.
