OBJECTIVE

Experienced Senior Business Analyst with over 8 years of expertise in financial data analysis, process optimization, and strategic solution delivery within healthcare and pharmacy industries. Skilled in SQL, Tableau, Power BI, and financial modelling to assess the financial impact of plan design changes, rebate guarantees, and process improvements. Adept at working with cross-functional teams to implement efficient solutions, optimize financial performance, and ensure compliance. Strong experience in PBM financial analysis and client consultation.

PROFESSIONAL SUMMARY

- 8+ years of experience in data analytics, finance, and business intelligence, with a focus on healthcare and pharmacy industries.
- Skilled in SQL, Excel (Pivot Tables, VLOOKUP, Macros), Power BI, and Tableau for data visualization and insights reporting.
- Experience working with PBM financial analysis, claims data, and formulary changes to evaluate financial impact before implementation.
- Proficient in programming languages and database management, including SQL and VBA.
- Experienced in automated testing and quality assurance, leveraging tools such as Selenium and Robot Framework.
- Demonstrated ability to analyse and interpret data to drive decision-making and improve outcomes.
- Proven ability to work across departments (Sales, Underwriting, Clinical Operations) to ensure proper financial controls and compliance.
- Committed to lifelong learning and staying updated on emerging trends in data analytics and technology.
