

MAHA BAIG

(703) 967-5930 | Vienna, Virginia

mahasaudbaig@gmail.com | linkedin.com/in/mahabaig

SUMMARY

CompTIA Security+ certified cybersecurity professional with hands-on experience in SOC operations, SIEM (Microsoft Sentinel), IDS/IPS, and incident response. Skilled in threat detection, phishing analysis, scripting (Python/PowerShell), and endpoint log analysis (EDR/SOAR). Strong foundation in networking, vulnerability management, and compliance frameworks. U.S. citizen, eligible for Secret clearance.

EDUCATION

BS in Business Information Technology – Cybersecurity Management & Analytics

Virginia Tech, May 2024

- GPA: 3.54 | Cum Laude | Dean's List (Aug 2021 – May 2024)
-

CERTIFICATIONS

CompTIA Security+ (SY0-701)

Earned August 2025

Johns Hopkins University Applied Generative AI Program

September 2025 – Expected Feb 2026

Accenture North American Data Analytics and Visualization Job Simulation - Forage

June 2024

PROJECTS

Implementing a SOC and Honeynet in Azure

February 2025

Platforms and Technology Used: Azure Virtual Machines, Microsoft Sentinel (SIEM), Log Analytics

- Monitored 30,000+ security events in Microsoft Sentinel, detecting repeated login failures and brute-force attempts across global endpoints.
- Correlated 26,000+ attempts from Poland and 13,000+ from Argentina, the Netherlands, and Belgium, generating geo-based threat intelligence dashboards.
- Produced reports summarizing audit failures, supporting incident response escalation and compliance documentation.

Cybersecurity Labs – Virginia Tech

February 2024

Platforms and Technology Used: Kali Linux, Hydra, John the Ripper, Wireshark, TCPDump

- Executed 3,500+ Hydra brute-force attempts, cracking FTP accounts in 17 tries and retrieving sensitive files to simulate post-exploitation.
 - Audited 5+ password hashes with John the Ripper; recommended MFA and stronger password policies to prevent abuse.
 - Captured and analyzed 50+ packets with Wireshark/TCPDump, detecting ARP scans and RDP anomalies consistent with attacker TTPs.
-

RELEVANT EXPERIENCE

TELUS Digital

December 2024 - June 2025

Online Data Analyst

- Reviewed 105+ structured data logs to ensure accuracy, integrity, and supported compliance monitoring.
 - Analyzed 15–20 daily queries, investigated anomalies, and troubleshooted issues to support incident response and improved system reliability.
-

LEADERSHIP

Virginia Tech Leadership Roles

January 2022 - March 2024

Hospitality Committee Member, Pamplin Leadership Development Team; Vice President & Historian, Muslim Student Association

- Managed logistics and catering for a 150+ attendee leadership conference within a \$10K budget, achieving a 9.5/10 satisfaction rating.
 - Organized 12+ campus events and a 300+ attendee regional conference; boosted online engagement by 700% using analytics-driven strategies and improved team performance through 10+ member interviews to align skills with roles.
-

SKILLS AND TECHNOLOGIES

Microsoft Sentinel (SIEM), IDS/IPS, EDR, SOAR, Firewalls, Wireshark, TCPDump, Hydra, John the Ripper, Microsoft Azure, Linux (Kali, Ubuntu), Incident Response, Threat Detection, Phishing Analysis, Packet Analysis, Vulnerability Management, Threat Intelligence, Data Security, SQL, Python, PowerShell, Agile Methodologies, Technical Documentation
