

Bhakta B. Magar

703.338.6819 · Chantilly, VA 20152 · bhaktamagar0125@gmail.com

Java | Python Developer | Full Stack Developer | Microservices | Spring Boot | Angular | AWS

Professional Summary

Detail-oriented Software Developer with a B.S. in Information Technology and hands-on experience in Java, Python, JavaScript, and SQL. Skilled in building scalable web and backend applications using Spring Boot, Angular, and RESTful APIs. Completed a Summer IT Internship with Loudoun County Government, contributing to both frontend and backend development, data analytics, and cloud-based tools. Proficient in Agile methodologies and passionate about expanding expertise in cybersecurity and cloud solutions.

Technical Skills

- **Programming Languages:** Java (1.7/1.8), J2EE, SQL, PL/SQL, JavaScript
- **Software Development Methodologies:** Agile (Scrum)
- **J2EE Technologies:** Servlets (3.1, 3.0), JSP (2.x), JDBC, JNDI, Java Beans, JAX-WS, SOAP, Axis, Apache, JPA, Hibernate
- **Web Technologies:** HTML, DHTML, XML, CSS, jQuery, JavaScript, AJAX, Bootstrap, XSLT, JSON, Angular 9+, ReactJS, Node.js
- **Frameworks & Libraries:** Spring (Boot, MVC, IOC, AOP, Web), Hibernate, JPA, Log4J, JUnit
- **Web Services:** RESTful, SOAP
- **Design Patterns:** Singleton, Factory, Data Access Object (DAO), MVC

- **Databases:** Oracle, MS SQL Server, MySQL, PostgreSQL, MongoDB
- **Testing & Tools:** Junit, Mockito, Log4J, Postman, and SoapUI

WORK EXPERIENCE

Summer IT Intern

Loudoun County Government - Department of Information Technology

June 2025 – August 2025 | Leesburg, VA

- Designed and deployed interactive Power BI dashboards and reports by integrating data from Excel, SQL Server, and live sources, enhancing route performance analytics and supporting data-driven decision-making.
- Improved the usability and interactivity of internal web applications by implementing JavaScript, HTML, and CSS enhancements for data visualization tools.
- Migrated and transformed large datasets to ensure accuracy, reduce cleanup time, and enable real-time operational insights.
- Strengthened local government cybersecurity through the Cybersecurity Towns Project by assessing municipal IT infrastructure, deploying SentinelOne endpoint protection, and addressing security vulnerabilities.
- Collaborated in Agile development sprints, leveraging GitHub for version control and Jira for task management.
- Engaged in professional development at the AWS Summit (Washington, D.C.), completing hands-on workshops in Amazon QuickSight, AWS Lambda, and AWS CodePipeline.

Java Developer (Contract)

Techbook Inc. - Contracting for Northern Trust

May 2022 – August 2022 | Remote

- Developed and maintained **RESTful APIs** that improved inter-service communication, reducing system response time by 25%.
- Engineered dynamic Angular UI components, improving workflow efficiency by 20% and

enhancing user experience.

- Optimized PL/SQL queries to reduce DB load time by 15%.
- Integrated **REST APIs** with **Angular** services to fetch and display **JSON** data.
- Worked with **Spring MVC** and Hibernate for backend development and database interactions.
- Utilized **Java 8** features like Streams and **Lambda Expressions** to optimize data processing.
- Wrote **SQL** queries, stored procedures, triggers, and functions using **PL/SQL** in Oracle.
- Used **Docker** to containerize applications and manage their lifecycle.
- Managed source code with **GIT** and automated builds using **Maven**.

Lead Sales Associate

Virginia Alcoholic Beverage Control Authority | Arlington, VA Jan 2015 – Present

- Oversee daily store operations, supervise the sales team, and ensure smooth and efficient workflow.
- Manage inventory and transactions using POS systems, iPod scanners, and printers.
- Provide exceptional customer service through product knowledge and tailored recommendations.
- Maintain security and compliance standards during store openings, closings, and all operational procedures.

EDUCATION

Colorado State University Global Campus - Denver, CO

Bachelor of Science in Information Technology June 2024

Northern Virginia Community College – Annadale, VA

Associate Degree in Information Technology May 2021

PROFESSIONAL Certifications & Training

- **CS50's Introduction to Computer Science – Harvard University (edX)**
Expected December 2025

Topics: Algorithms, Data Structures, Web Development, Python, C, SQL

- **ASP.NET & Java Training** – Completed 2017
- **Diploma in Application Programming** – Completed 2006
