

Summary

- Over 4 years of experience as a Java Full Stack Developer, specializing in building scalable and high-performance web applications.
- Proficient in backend development using Java SE, Spring Boot, Hibernate, and Microservices architecture.
- Expertise in creating dynamic and responsive frontend applications using AngularJS, React.js, and JavaScript (ES6+).
- Skilled in developing and consuming RESTful Web Services and J2EE technologies including JSP, JMS, Java Servlets, and Struts.
- Strong database management skills with experience in Oracle, MySQL, PostgreSQL, and MongoDB.
- Hands-on experience with Version Control Systems like Git, GitHub, and SVN.
- Extensive knowledge in implementing CI/CD pipelines using Jenkins, Maven, and Bamboo.
- Proficient in automated testing frameworks like JUnit, Mockito, Selenium, and TestNG.
- Experienced in Agile methodologies and Test-Driven Development (TDD) for delivering high-quality software solutions.
- Adept at working collaboratively in cross-functional teams, ensuring efficient project delivery and continuous improvement.

Technical Skills

- **Programming Languages:** Java, SQL, PL/SQL, C++, JavaScript, Python
- **Scripting Languages:** XML, XHTML, HTML, CSS, AJAX, jQuery, JSON, AngularJS, React.js, Node.js, Bootstrap
- **Backend Technologies:** Spring Boot, Hibernate, Spring (Core, MVC, DAO, JPA, AOP, Security, Boot, Quartz), J2EE (JSP, JMS, Java Servlets, JDBC), Microservices, Kafka
- **Web Services:** SOAP, RESTful Web Services, JAX-RS, JAX-WS, JAX-RPC
- **Databases:** Oracle, MySQL, PostgreSQL, DB2, MongoDB, Microsoft SQL Server, SAS
- **Testing Tools:** JUnit, Mockito, Selenium WebDriver, TestNG, Cucumber, Jest
- **Version Control Systems:** Git, GitHub, Bitbucket, SVN, CVS
- **DevOps & CI/CD Tools:** Jenkins, Maven, Bamboo
- **Frameworks:** Struts, JSF, iBatis, EJB
- **Application Servers:** Oracle WebLogic, IBM WebSphere, JBoss, Apache Tomcat
- **Design Methodologies:** Waterfall, Agile, TDD (Test-Driven Development)
- **Operating Systems:** Windows, UNIX, Linux
- **IDE Tools:** Eclipse, IntelliJ IDEA, Visual Studio Code, NetBeans, IBM RAD, ANT, STS

Experience

Goldman Sachs Global

Jun 2024 - Present

Java Full Stack Developer

- Designed and developed microservices-based solutions for enterprise clients, enhancing system modularity and reducing downtime by 25%.
- Led cloud migration of critical business application to AWS, improving system availability by 30%.
- Developed responsive web application using React.js, boosting user engagement by 40%.
- Optimized backend performance with Spring Boot, reducing system response times by 20%.
- Automated deployments using Jenkins, cutting deployment times by 15% and improving system stability.
- Enhanced database performance with MySQL, enabling 25% faster data access and improved efficiency.
- Improved software quality through end-to-end testing with JUnit, reducing post-release bugs by 30%.
- Streamlined product delivery by collaborating with cross-functional teams, leading to an 80% improvement in project timelines.
- Mentored junior developers and conducted code reviews, contributing to a 40% boost in team productivity.

Coforge

Jun 2018 – Jul 2022

Java Full Stack Developer

- Developed and maintained 10+ high-performance web applications using Java and Spring Boot.
- Designed and implemented 50+ RESTful APIs for seamless integration between backend and frontend systems.
- Led the migration of legacy application to a microservices architecture, improving scalability and performance by 40%.
- Created dynamic user interfaces using React.js, enhancing user experience by 30%.
- Worked closely with DevOps teams to set up and manage CI/CD pipelines using Jenkins, resulting in 20% faster release cycles.

- Managed databases such as MySQL, optimizing queries and improving data retrieval times by 25%.
- Conducted automated unit testing using JUnit, improving test coverage by 35%.
- Led Agile Scrum teams of 5-7 developers, ensuring timely delivery of high-quality code within bi-weekly sprints.
- Actively participated in code reviews and implemented best practices, reducing production defects by 15%.

Education

- | | |
|--|----------------------------|
| • Master of Science in Computer Science
Wichita State University | Aug 2022 – Jul 2024 |
| • Bachelor of Technology in Computer Science
Vignan University | Jun 2016 – May 2020 |

Achievement

- Managed vendor relationships and negotiated contracts for 10+ events, resulting in high-quality services
- Established network of reliable partners that is now utilized for all major university functions, enhancing overall event.
