5+ years of excellence in cloud-native full-stack and software application development across Telecom and Enterprise Software domains. Delivered **high-availability microservices platforms** processing millions of requests using **Java 17, Spring Boot 3, Kubernetes, and AWS Cloud**. Proven ability in architecting scalable distributed systems, optimizing SQL workloads by 30%, automating CI/CD pipelines reducing deployment cycles by 40%, and maintaining **99.9% uptime production platforms**. Strong collaborator experienced in Agile/Scrum and Test-Driven Development, driven to build secure, scalable, and performance-optimized cloud applications.

Technical Skills

- **Programming Languages:** Java, Kotlin, JavaScript, SQL, TypeScript, Python, React.js, Angular 14
- **Java Frameworks:** Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, Spring Cloud
- **Microservices:** RESTful APIs, SOAP, Spring Cloud, Docker, Kubernetes
- **Cloud Platforms:** AWS (EC2, S3, Lambda, RDS), Azure, Google Cloud
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis, Cassandra
- **DevOps & CI/CD:** Jenkins, GitLab CI, Bamboo, Docker, Kubernetes, Maven, Gradle
- **Testing Frameworks:** JUnit, TestNG, Mockito, Selenium, Cucumber, Postman, Cypress
- **Version Control:** Git, GitHub, GitLab, Bitbucket
- **Web Technologies:** HTML, CSS, JavaScript, React, JSP
- **Security:** OAuth2, JWT, SSL/TLS, XSS, CSRF, OWASP security practices
- **Tools:** IntelliJ IDEA, Eclipse, JIRA, Confluence, Postman, Swagger
- **Agile/Scrum:** Agile, Scrum, TDD, BDD, Kanban

Certifications

- Amazon Web Services Developer – Associate - Amazon Web Services (AWS)
- Oracle Cloud Data Management 2023 Certified Foundations Associate – Oracle

Professional Experience

MAY 2024 – PRESENT

Software Engineer | Verizon Communications Inc | USA

Environment: Java 17 | Spring Boot 3 | REST APIs | AWS | Docker | Kubernetes | GitHub Actions | Jenkins | GitLab | PostgreSQL | Angular 17 | Agile

- Architected and deployed cloud-native microservices using Java 17 and Spring Boot 3, supporting high-traffic telecom platforms with 99.9% uptime.
- Built secure REST APIs integrated across distributed systems, handling thousands of concurrent users daily.
- Containerized applications using Docker and Kubernetes (EKS) enabling elastic scaling and zero-downtime deployments.
- Automated CI/CD pipelines via GitHub Actions, Jenkins, and GitLab, cutting release cycles by 40%.
- Implemented centralized monitoring and alerting with AWS CloudWatch, reducing incident response time by 35%.
- Collaborated in architecture design reviews, mentored junior engineers, and enforced best coding practices.

DEC 2020 – MAR 2024

Jr. Java Developer | NetCracker Technology Solutions | India

Environment: Java 11 | Spring Boot | Spring Batch | REST APIs | PostgreSQL | Oracle | Angular | ReactJS | Jenkins | GitLab | Docker | Agile

- Built microservices and REST APIs processing 10M+ daily transactions across enterprise platforms.
- Optimized SQL and PL/SQL queries improving response time by 25–30%.
- Developed Angular and React dashboards integrated with Spring Boot backends.
- Implemented automated testing achieving 98% defect prevention pre-release.
- Designed event-driven messaging modules for asynchronous microservice communication.

Education

University of North Texas | Denton, Texas

Master of Science – Data Science

Osmania University | India

Bachelor of Engineering - Computer Science and Engineering
