

BHANUPRASAD DESHAIPET

Data Analyst

Houston, TX | (475) 239-8213 | Bhanuprasad.deshaipet1998@gmail.com | [linkedin.com/in/bhanuprasad-deshaipet-bb3b2833b](https://www.linkedin.com/in/bhanuprasad-deshaipet-bb3b2833b)

PROFESSIONAL SUMMARY

Data Analyst with 7 years of experience designing automated reporting systems, scalable SQL pipelines, forecasting models, and KPI-driven dashboards. Expert in SQL, Python, Power BI, Tableau, and ETL workflows. Known for improving data accuracy to 98–99%, reducing manual reporting cycles, and building analytics solutions enabling strategic, operational, and financial decision-making. Strong foundation in modernizing reporting systems, structuring KPIs, implementing data quality frameworks, and analyzing large datasets across operations and finance.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Matplotlib), SQL (CTEs, Window Functions), EDA, Statistics, Data Modeling

BI Tools: Power BI (DAX, RLS, Data Modeling), Tableau, Looker Studio

Data Engineering: ETL Pipelines, Data Warehousing, Automation & Scheduling, Data Quality Validation

Tools: Excel (Power Query, Pivot Tables, VBA), PostgreSQL, MSSQL, MySQL, Git, Jira, Confluence, Azure DevOps

Domain Knowledge: Operations Analytics, Financial Reporting, Risk Analysis, Customer Insights, Process Optimization

PROFESSIONAL EXPERIENCE

Senior Data Analyst | Orion Path Technologies

Houston, TX | Nov 2025 – Present

- Building analytics foundation using SQL, Python, and Power BI; defining KPI logic and performance metrics.
- Identifying automation opportunities across operations and finance to reduce manual reporting workload.
- Designing SQL models, staging layers, and reusable BI templates for future dashboards.
- Documenting data sources, business rules, glossary terms, and metric definitions.
- Setting up baseline data-quality checks and validation routines for production datasets.
- Supporting founders with reporting strategy, prioritization, and analytics roadmap planning.

Senior Data Analyst | Soft Parch LLC

Houston, TX | Jan 2025 – Oct 2025

- Built a Python-based QA framework, achieving **99% dataset accuracy** across automated pipelines.
- Improved SQL performance using indexing and stored procedure tuning (**40% faster refresh**).
- Converted 10+ Excel workflows into automated Power BI dashboards with real-time insights.
- Designed segmentation, retention, and lifecycle dashboards supporting \$45K+ annual savings.
- Developed forecasting and anomaly detection models for operational planning.
- Enhanced ETL reliability via schema validation, incremental loads, and logic restructuring.
- Partnered with business teams to define KPIs, reporting frequency, and visualization standards.

Business Analyst | Genpact

India | Jun 2021 – Aug 2023

- Gathered requirements and wrote BRDs/FRDs for enterprise reporting and analytics initiatives.
- Built Excel dashboards for KPIs, defect trends, SLA metrics, and operational insights.
- Performed SQL validations, reducing defect leakage by **20%**.
- Led UAT, coordinated release testing, and collaborated with development teams.
- Conducted RCA on recurring data issues and proposed correction frameworks.
- Helped refine business logic, workflows, and reporting enhancements based on stakeholder needs.

Data Analyst | Shadowfax

India | Nov 2019 – May 2021

- Built **15+ dashboards** for SLA monitoring, operational efficiency, delivery timelines, and route analytics.
- Automated workflows using VBA improving reporting speed and reduce manual effort.
- Strengthened SQL validation improving upstream data accuracy across operational datasets.
- Provided weekly/monthly insights for workforce planning, resource allocation, and performance reviews.
- Contributed to requirements gathering, dashboard design, and performance monitoring improvements.

Credit Risk & Data Analyst | Shadowfax

India | Jun 2018 – Oct 2019

- Analyzed credit, fraud, and transaction patterns, reducing financial risk exposure.
- Built risk scoring dashboards supporting financial decision-making and compliance reviews.
- Conducted anomaly detection and RCA for fraud/compliance issues.
- Delivered daily and weekly risk intelligence for leadership and risk teams.
- Optimized validation rules used in loan approval and exception workflows.

Data Analyst Intern | Shadowfax

India | Jan 2017 – May 2018

- Extracted, cleaned, and transformed data using SQL and Excel for operational reporting.
- Built dashboards for vendor tracking and daily/weekly performance monitoring.

- Supported documentation, workflow mapping, SOP creation, and metric definition.
- Investigated refresh failures and improved reliability of early reporting pipelines.

EDUCATION

Master of Science in Business Analytics

Sacred Heart University | 2023–2024

Relevant Coursework: Predictive Analytics, Data Modeling, Visualization, Statistical Methods, Big Data Tools

Selected Academic Projects:

- Predictive Modeling: Built classification models (Logistic Regression, RF) for churn risk.
- Marketing Analytics Dashboard: Power BI report tracking campaign ROI & engagement.
- Forecasting Study: ARIMA-based demand forecasting with seasonal decomposition.

Bachelor's in Technology and Business Administration

Telangana University, Hyderabad

Relevant Coursework: Data Structures, Algorithms, DBMS, OS, Probability, Machine Learning

Relevant Academic Work: SQL system design, Python automation scripts, data processing modules.

ACADEMIC PROJECTS

Customer Churn Analysis (Master's Capstone) – Python, SQL

- Performed EDA and statistical feature selection; built baseline churn models.
- Identified key churn drivers and delivered actionable retention insights.

Sales Performance Dashboard – Power BI, SQL, DAX

- Designed executive KPI dashboard with drilldowns, YoY/MoM metrics, and automated refresh.

Student Performance Analysis System – Python, Excel

- Analyzed attendance-to-grades correlation; built dashboards highlighting risk groups.

Inventory & Order Tracking System – SQL, Data Modeling

- Designed normalized schema; built queries for tracking orders, stock shortages, and delays.

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Microsoft Power BI Data Analyst Associate (PL-300)

ADDITIONAL COMPETENCIES

Time-Series Forecasting (ARIMA) • KPI Standardization • A/B Testing • RCA • Data Quality Auditing • Dashboard Wireframing • Requirements Gathering • Process Optimization • Cross-Functional Collaboration
