PROFESSIONAL SUMMARY

Data and Business Analytics professional with 4+ years of experience transforming data into actionable insights that enhance performance and strategy. Skilled in **SQL, Python, Power BI, data modeling, and cloud platforms (Azure, AWS)** to build automated dashboards, predictive analytics, and **end-to-end ETL and ML workflows**. Proven success improving business processes, cutting reporting time by **30%+**, and delivering scalable, data-driven solutions across banking, e-commerce, and technology sectors.

TECHNICAL SKILLS

- **Programming & Data:** Python (pandas, NumPy, scikit-learn), SQL (MySQL, MS SQL), Advanced Excel (macros, pivots)
- **BI & Visualization:** Power BI (DAX, KPI dashboards, drillthroughs), Tableau, SSRS, Data storytelling
- **Data Engineering & ETL:** ETL (SSIS, Python, SQL pipelines), Data modeling (Star/Snowflake), Data quality & validation, Lineage, Automation
- **Machine Learning & Analytics:** Regression, Classification, Random Forest, XGBoost, Time Series (ARIMA, Prophet, LSTM), Clustering, SHAP
- **Cloud & Platforms:** Azure (Data Factory, Synapse), AWS (S3, Glue, Lambda), Microsoft Fabric, Snowflake
- **Collaboration & Ways of Working:** Agile/Scrum, Stakeholder management, Requirements, Process mapping (Visio), Git, JIRA, UAT
- **Core Strengths:** Analytical storytelling, stakeholder engagement, process improvement, and data-driven decision-making.
- **Key Achievements:** Automated reporting workflows saving 10+ hours/month; improved dashboard efficiency by 35%; enhanced data governance and model scalability.

WORK EXPERIENCE

BI & Data Analyst, Dsign Code LLC, Wixom, MI

Aug 2023 - Present

- Optimized **SQL pipelines and ETL workflows**, reducing refresh latency by **20%** and improving reliability of daily analytics jobs.
- Designed, built, and maintained **30 Power BI dashboards** tracking KPIs across operations, compliance, and finance, cutting manual reporting by **35%**.
- Automated **SLA and performance reports** with Python and Power Automate, saving **~10 hours per month**.
- Delivered **KPI insights and led migration of BI assets to Azure Synapse**, improving decision-making speed by **25%** and enabling scalable cloud analytics.
- Partnered with cross-functional teams to **map business processes, build governed semantic models, and automate data ingestion using Azure Data Factory and Python ETL**.
- Developed **automated Power BI dataflows connected to Azure Synapse and SQL Server**, improving refresh consistency and reducing manual intervention by **40%**.
- Implemented **row-level security (RLS) and access controls** in Power BI, ensuring compliance and secure enterprise reporting
- Created **data validation scripts in Python and SQL** to verify ETL outputs, achieving **99% data accuracy** across production pipelines.

Junior Business Analyst, Cudit Solutions, India

Aug 2020- July 2022

- Gathered business requirements through stakeholder interviews and converted them into **user stories, acceptance criteria, and wireframes**.
- Created **interactive Power BI dashboards** consolidating data from 3 disparate systems, delivering near-real-time insights for leadership.
- Performed **data cleansing and validation** using SQL and Excel, increasing data accuracy for monthly performance metrics by **15%**.
- Built reusable **Python scripts to automate recurring Excel and CSV reports**, reducing turnaround time by **40%**.
- **Documented ETL logic, Star-schema models, and data dictionaries**, improving data transparency and supporting onboarding for new analysts.
- Designed Excel Power Query workflows that **reduced manual data preparation efforts by 30% per reporting cycle**.
- **Developed DAX measures and KPI models** for profitability, customer retention, and performance analysis, enabling self-service BI.
- Collaborated in Agile sprints to **prioritize BI backlog items, ensuring alignment between business needs and technical deliverables**.

EDUCATION

Kent State University - M.S., Business Analytics

Aug 2022 – Aug 2024

SRK University – B.C.A, Computer Applications

July 2017- Dec 2020

CERTIFICATIONS

- **Microsoft Power BI Data Analyst (PL-300)** – Microsoft
- **Google Advanced Data Analytics** – Google
- **Microsoft Azure Enterprise Data Analyst** – Microsoft
- **Microsoft SQL Data Analyst** – Microsoft
- **AWS Cloud Practitioner** – Amazon Web Services
- **Agile Scrum Practitioner** – Scrum Alliance
