SUMMARY

Data Analyst with around 4 years of experience in extracting, analyzing, and visualizing data to identify the scope of improvement and applying data solutions. Hands-on experience with SQL, Excel, Python, and R for data manipulation, with expertise in using Power BI and Tableau to create insightful dashboards and reports. Skilled in big data technologies, cloud platforms, ETL processes, and machine learning techniques for predictive analytics. Proficient in statistical modeling, advanced Excel automation, and developing end-to-end data pipelines to generate actionable insights that drive business performance.

SKILLS

Methodology: SDLC, Agile, Scrum, Waterfall

Languages: Python, R, Spark

IDEs: Visual Studio Code, PyCharm, Jupyter Notebook

Python & R Libraries: NumPy, Pandas, SciPy, Matplotlib, Seaborn, TensorFlow, Scikit-Learn, PyTorch, ggplot2, dplyr, tidyr

Statistical & Analytical Techniques: Descriptive & Inferential Statistics, A/B Testing, Correlation Analysis, Forecasting, Regression Modeling, Hypothesis Testing

Visualization Tools: Tableau, Power BI, MS Excel

Advanced Excel Functions: VLOOKUP, HLOOKUP, INDEX-MATCH, XLOOKUP, Power Query (large datasets 1M+ rows, 99% accuracy with automated validation)

Big Data Technologies: Apache Hadoop, Apache Spark, Apache Kafka, Apache Hive, Apache Airflow, Databricks, Snowflake

Cloud Technology: AWS (S3, Redshift, Glue), GCP (BigQuery), Azure (Data Lake, Synapse Analytics)

Data Cleaning & Transformation: ETL Processes, Alteryx, Apache NiFi, Talend, SSIS, Data Wrangling (Python/Excel), Data Validation

Databases: MySQL, PostgreSQL, SQL Server, Oracle, MongoDB, Google BigQuery, Amazon Redshift

Version Control Tools: Git, Git Bash

EXPERIENCE

Data Analyst, Cigna Healthcare Group, USA

Feb 2025 – Present

- Engaged in Agile methodology practices, participating in sprint planning, reviews, and retrospectives to ensure project alignment and iterative delivery.
- Leveraged AWS S3 for secure, scalable data storage and integrated Amazon Redshift for efficient querying and analysis of large datasets, enabling real-time business insights.
- Applied machine learning techniques such as regression, classification, and clustering to uncover patterns in large datasets, enhancing predictive insights.
- Utilized advanced Python and R libraries (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, ggplot2) for data manipulation, modeling, and visualization.
- Designed revenue dashboards in Excel (VLOOKUP, INDEX-MATCH, XLOOKUP, Power Query) and Power BI, improving revenue analytics accuracy by 99% and supporting strategic decisions.
- Managed MySQL databases, creating user-defined functions and stored procedures to streamline reporting and ensure timely delivery of insights.
- Utilized Snowflake for querying, transformation, and analysis, improving reporting efficiency and reducing latency.
- Built automated ETL workflows with Apache Airflow and Databricks, ensuring accurate data ingestion and transformation across multiple systems.

Data Analyst, Cyient, India

Aug 2019 – Dec 2022

- Collaborated with stakeholders to analyze and document project requirements in adherence to Waterfall methodology.
- Designed dashboards and reports in Tableau, Power BI, and Excel to communicate insights effectively.
- Leveraged Databricks, Google Cloud, and Apache Hadoop for scalable storage and analysis of large datasets.
- Developed and maintained ETL pipelines using Talend, SSIS, and NiFi, improving data accuracy by 30%.
- Implemented SQL Server backup and recovery strategies to ensure business continuity.
- Configured AWS instances and dynamically scaled resources for efficient data processing.
- Optimized SQL queries and indexes, reducing query execution time and improving overall data performance.
- Applied advanced data wrangling, merging, reshaping, and aggregation techniques to extract actionable insights.
- Integrated Apache Kafka and Hive for real-time data ingestion and querying, enabling faster decision-making.

EDUCATION

Master's in Computer and Information Sciences, University of Texas at Arlington, TX, USA

Jan 2023 – Dec 2024

Bachelor's in Computer Science and Engineering, Malla Reddy Institute of Tech and Science, India

Aug 2016 – Sep 2020
