

Bharath (Barry) Murthy

Manhattan Beach, CA 90266 | 310.748.9487 | bamurthy1994@gmail.com | linkedin.com/in/bamurthy

About

Data Scientist & Research Analyst with experience in data analysis, predictive modeling, and business intelligence. Proficient in Python, SQL, and R with applications in dashboards, forecasting, and experimental design. Adept at turning complex data into actionable insights for business, healthcare, and research applications.

Core Competencies

- Data Analysis & Forecasting
- Business Intelligence & Dashboards
- Statistical and Regression Modeling
- Secure Data Management
- Team Collaboration & Leadership
- Data Privacy & Compliance

Technical Skills

Programming: Python, R, MATLAB
Visualization: Power BI, Tableau, Microsoft Visio
Databases: SQL Server, MongoDB, Microsoft Access

Certification

- W3 Schools – Data Science Fundamentals

Work Experience

Raytheon Missiles & Defense – Data Scientist / Research Analyst

Tucson, AZ | 2022 – May 2024

- Built real-time dashboards in Power BI to monitor key performance indicators, enabling leaders to make data-driven decisions.
- Led root cause analysis and corrective action reviews, ensuring quality and compliance across cross-functional teams.
- Developed predictive models and visualizations to support reliability metrics and regulatory reporting.

Physical Optics Corporation (now Mercury Systems, Inc.) – Research Data Analyst

Torrance, CA | 2017 – 2021

- Created predictive models and time series analyses in Python to forecast outcomes and optimize processes.
- Conducted research in biometric authentication and presented findings in technical proposals.

Education

Syracuse University – M.S., Applied Data Science (2022)

Key Coursework: Data Analysis & Decision Making, Natural Language Processing, Business Analytics, Data Visualization, Scripting in Python, Research Methodologies & Survey Methods

UC Riverside – B.S., Statistics (2017)

Key Coursework: Regression Analysis, Design of Experiments, Probability & Statistics for Engineering, Statistical Computing

Project Highlights

- Conducted supervised and unsupervised learning analyses, applying Random Forest and SVM techniques to stock price movement studies.
- Participated in Kaggle competitions to optimize inflammatory response flagging in online forums.
- Designed and implemented database UI using SQL Server Manager and Microsoft Access for streamlined navigation and data management
