

Bhargavi Dandu

Data Analyst

Overland Park, KS | (913) 703 6658 | dandubhargavi99@gmail.com | [LinkedIn](#)

SUMMARY

Data Analyst with over 3 years of experience delivering data-driven insights across healthcare and financial domains. Proven expertise in analyzing large-scale EHR, claims, and transactional data using SQL, Python, and advanced Excel. Adept at building automated ETL pipelines, developing interactive dashboards with Power BI and Tableau, and applying statistical models to support business-critical decisions. Skilled in applying HIPAA, ICD-10, GAAP, and regulatory frameworks to ensure compliance and data integrity. Strong communicator with a track record of improving operational efficiency, reducing costs, and driving strategic outcomes through data.

TECHNICAL SKILLS

Data Cleaning & ETL: Python (Pandas), Alteryx, Talend, Apache NiFi, AWS Glue

Programming & Scripting: Python (Pandas, NumPy, Matplotlib, Seaborn), R (ggplot2, dplyr), Jupyter Notebook

Data Querying & SQL: SQL (PostgreSQL, MySQL, T-SQL), Snowflake, BigQuery

Spreadsheet Tools: Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP, Macros, Power Query)

Data Visualization: Power BI, Tableau, Looker, Matplotlib, Seaborn

Functional Expertise: EHR, Claims Data, HIPAA Compliance, Financial Statements, Forecasting, Budgeting, GAAP, SEC Reporting

Statistical Analysis: Descriptive & Inferential Statistics, Hypothesis Testing, Time Series Forecasting

Tools & Platforms: Git, Jira, Confluence, AWS S3, Microsoft Azure, Google Workspace

PROFESSIONAL EXPERIENCE

Cigna Healthcare Group, USA

Feb 2024 – Present

Data Analyst

- Analyzed large-scale EHR and claims data using SQL (PostgreSQL, T-SQL) and Python (Pandas, NumPy) to uncover utilization patterns, cost drivers, and care gaps across diverse patient populations.
- Developed end-to-end ETL pipelines using Apache NiFi and AWS Glue, integrating data from EMR, lab systems, and billing platforms into a centralized data lake on AWS S3, improving data accessibility and reducing manual reporting effort by 40%.
- Created interactive and executive-level dashboards in Power BI and Tableau to track claim denial rates, provider performance, and clinical KPIs, enabling data-driven decisions by care teams.
- Investigated high-volume claim denials by analyzing payer data and denial reason codes, resulting in a 22% improvement in claim approval rates and faster reimbursement cycles.
- Standardized diagnosis and procedure codes by mapping ICD-10, CPT, and HCPCS into analytics pipelines; ensured compliance with CMS and HIPAA regulations across all data handling procedures.
- Applied descriptive statistics and time series forecasting techniques to analyze patient visit frequency and insurance claims, supporting care optimization strategies that reduced total cost of care by 10%.
- Collaborated with cross-functional teams using Jira and Confluence in an Agile delivery environment; managed source control and project workflows with Git and GitHub.

Streebo Inc, India

Jul 2020 – Jul 2022

Data Analyst

- Analyzed customer transaction and loan data using SQL and Python to detect spending trends, credit risk patterns, and portfolio performance across banking products.
- Built interactive Power BI dashboards to visualize KPIs such as delinquency rates, net interest margins, and claims processing time, driving real-time business insights.
- Applied GAAP and regulatory frameworks to financial data models, ensuring accurate reconciliation of revenue, expenses, and compliance with audit standards.
- Automated monthly reporting pipelines in Python and Excel, reducing manual financial reporting time by 45% and improving forecast accuracy.
- Collaborated with risk, underwriting, and claims teams to develop data validation rules and reduce fraud exposure in insurance and credit claim workflows.
- Developed predictive models using Python (scikit-learn) to forecast loan default risk and policy lapse probability, improving early risk detection and portfolio stability.

EDUCATION

Masters in Computer Science

Dec-2023

University of Central Missouri, Missouri, USA
