Methodologies: Agile | Scrum | Waterfall | Unified Modeling language (UML)

Adobe UX Tools: Adobe XD | Adobe Fireworks | Adobe Photoshop | Adobe Dreamweaver | Adobe Illustrator

WORK EXPERIENCE

Scrum Master & Business Analyst, Bridgesoft, DE (Client: Allegiant Airlines)
2023 – Present | Columbus, IN

- Led Agile delivery for five successful SailPoint integrations in the IAM domain, achieving 100% on-time delivery.
- Directed a cross-functional team of 10+ developers, 4 QA engineers, and a program manager, ensuring alignment on sprint goals and deliverables.
- Created detailed Business Requirement Documents (BRDs) based on stakeholder workshops and technical consultations.
- Maintained and structured Jira boards with 150+ user stories per sprint, supporting a team velocity of ~240 story points.
- Collaborated with Product Owners to prioritize backlog items, write actionable user stories, and maintain sprint health.
- Led User Acceptance Testing (UAT), coordinating between developers, solution architects, and stakeholders to ensure readiness and quality.
- Reported sprint metrics and progress to leadership, supporting informed decision-making and transparency.
- Coached the team through Agile practices and mentoring on scrum to improve the efficiency and effectiveness of the team.
- Promoted continuous improvement through team feedback.
