

SUMMARY

Data Analytics and Programming Professional with 3 years of experience leveraging SQL, Python, Power BI, and cloud platforms to enable data-driven decisions and digital transformation. Expertise in building and maintaining scalable reporting dashboards, automating workflows, and supporting cross-functional teams with structured insights. Adept at translating business problems into technical solutions, ensuring data quality, and delivering stakeholder-ready visualizations aligned with strategic goals.

TECHNICAL SKILLS

- **Programming & Querying:** Python, SQL, DAX, Data Cleaning, Data Structuring, Pandas, NumPy
- **Data Analytics & Visualization:** Power BI, Tableau, KPI Reporting, Advanced Excel, Data Models, EDA
- **Cloud & Platforms:** Azure, Google Cloud Platform, Microsoft Office Suite
- **ETL & Automation:** Workflow Automation, ETL Pipelines, Data Preparation
- **Documentation & Collaboration:** BRD Creation, Functional Specs, JIRA, Git, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Infinity Management, Arlington., Texas, USA (Internship)

August 2024 – December 2025

Associate – Data Analytics and Programming

- Developed data-driven solutions using SQL, Python, and Power BI aligned with business use cases.
- Created and deployed KPI dashboards in Power BI, reducing reporting turnaround time by 35%.
- Modeled data relationships and built calculated measures using DAX, improving reporting accuracy by 20%.
- Automated data cleaning and transformation workflows with Python, saving over 10 hours per week in manual effort.
- Collaborated across teams to define KPIs, collect reporting needs, and improve data readiness.
- Ensured data quality compliance through cleansing and validation, reducing data inconsistencies by 30%.

MassMutual, Hyderabad, India

June 2022 – May 2023

Business Analyst

- Extracted and structured business process data for compliance and operational performance reports.
- Used SQL and Excel to automate data validation, reducing manual errors by 25% and improving report delivery time.
- Collaborated with stakeholders and product teams to translate business logic into technical solutions.
- Built dynamic Excel reports and supported ad-hoc analysis, decreasing request backlog by 40%.
- Supported automation of reporting processes, improving overall team efficiency by 30%.
- Resolved data discrepancies by implementing validation logic, enhancing report accuracy by 15%.

APSSDC, India

May 2021 – January 2022

Junior Data Analyst Intern

- Designed custom reports and dashboards using Excel and internal tools to track operational KPIs across business units.
- Conducted data cleaning, preparation, and analysis to support business decisions, reducing raw-to-report time by 20%.
- Collaborated on requirements gathering and testing of automated reporting workflows, improving delivery consistency.
- Developed process documentation and data dictionaries, increasing data accessibility and team onboarding speed.
- Participated in stakeholder discussions to refine reporting metrics and deliverables, aligning output with business goals.

EDUCATION

University of North Texas, Denton, Texas, USA

Master's in Advanced Data Analytics

August 2023 – May 2025

GPA: 3.6
