

BHAVANA PURAMSETTY

TX, USA | +1 (469)-792-1284 | puramsettyb@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

- Proficient **Software Developer** with expertise in building interactive, maintainable, and scalable web applications using **React.js**, **Angular**, **TypeScript**, and modern **JavaScript**.
- Experienced in developing **modular architectures** with state management (**Redux**, **NgRx**), secure **API** integrations, and real-time features using **WebSockets**, **GraphQL**, and **Java-based services**.
- Strong foundation in **performance tuning**, **debugging**, and **responsive design principles**, with a focus on **optimizing load times** and **ensuring cross-platform** compatibility.
- **Hands-on experience** with cloud services (**AWS**), containerization (**Docker**), orchestration (**Kubernetes**), and serverless computing (**Lambda**).
- Skilled in **Agile development**, version control (**Git**, **Bitbucket**), and testing frameworks (**Jest**, **Cypress**, **JUnit**), contributing to clean, testable code and efficient **CI/CD** workflows.

TECHNICAL SKILLS

• Frameworks & Libraries	:	React.js, Angular, NgRx, Redux, D3.js, jQuery
• Languages	:	JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/SCSS, Java, Python
• Performance Tools	:	DevTools, Lighthouse, Webpack, Babel, Lazy Loading, Caching
• API & Communication	:	REST APIs, GraphQL, WebSockets, Google Maps API
• Authentication & Security	:	JWT, OAuth 2.0, Role-Based Access Control
• Testing & QA	:	Jest, Cypress, Mocha, Postman, JUnit (basic)
• Development Practices	:	Git, Bitbucket, CI/CD, Agile (Scrum, Kanban), JIRA
• Design & Accessibility	:	Responsive Web Design, WCAG Compliance, Cross-Browser Compatibility
• Cloud & DevOps Tools	:	AWS (S3, Lambda, EC2, CloudWatch), Docker, Kubernetes, Firebase, GitHub Actions
• Databases	:	SQL, Firebase, MySQL (basic), NoSQL (familiarity with MongoDB), PostgreSQL

PROFESSIONAL EXPERIENCE

Uber

Software Developer

TX, USA

Mar 2025 – Current

- Designed and built scalable interfaces in **React.js** integrated with **Java-based microservices**, improving front-end and backend communication efficiency.
- Developed backend interaction modules using **Java**, handling trip data, ride histories, and real-time driver location services for 10K+ users.
- Secured user flows with **JWT and OAuth 2.0**, reducing session-related issues and enhancing authentication reliability across platforms.
- Collaborated on CI/CD pipelines, integrated **Cypress** for E2E testing, and performed regression testing against Firebase.
- Optimized load performance by 28% using lazy loading, asset bundling, and JavaScript route-splitting strategies.

AIRBNB

Front-End Developer

India

Oct 2021 – Nov 2022

- Built booking workflows and listing modules with **Angular**, connected to PostgreSQL-backed APIs
- Created dynamic dashboards using **D3.js** and React for internal teams, streamlining analysis of listing availability and user interaction trends.
- Integrated Google Maps API with dynamic property data for 1,000+ listings, enhancing geolocation-based search experience.
- Used **Python** scripts for automating data checks and UI test scenarios, improving test coverage and reducing manual QA time.
- Deployed modules with AWS S3 and Lambda; scaled environments with Kubernetes for high-traffic testing and deployment scenarios.
- Enhanced property messaging and booking interactions using WebSockets and real-time APIs.

ADANI

Frontend Developer

India

Feb 2021 – Sep 2021

- Created booking workflows and listing modules with **React.js**, connected to PostgreSQL-backed APIs.
- Integrated **REST APIs** with **MySQL**, including some services developed in **Python** for automated report generation and API response formatting.
- Supported role-based access with OAuth 2.0, and enhanced portal security protocols using secure token flows.
- Coordinated with backend team to optimize SQL and lightweight **Python scripts**, reducing API response times during peak hours.
- Used AWS CloudWatch for frontend performance monitoring and incorporated log insights into release planning.
- Applied UI optimizations like lazy loading and dynamic imports to enhance responsiveness and reduce load times.

CERTIFICATIONS

- Data Analytics and Visualization – Accenture
- Python Programming – LUDIFU

EDUCATION

University of North Texas

Master's in Computer Science

TX, USA

Jan 2023 - Dec 2024

KSRM College of Engineering

Bachelor of Technology – Computer Science

Kadapa, India

Aug 2018 – Apr 2022
