

# Bhavana Gaddam | SOFTWARE ENGINEER

TX – 75019 | bhavanagaddam4@gmail.com | (469) 712-6575 | www.linkedin.com/in/bhavana-g-b54a80380

## SUMMARY

Full Stack Software Engineer with 5 years of experience in designing, developing, and deploying scalable web applications and cloud-based solutions. Strong expertise in Python, Java, J2EE, Spring Boot, and modern front-end frameworks including React and Bootstrap. Proven experience in RESTful APIs, microservices architecture, CI/CD pipelines, database design, ETL processes, and cloud platforms (AWS, Azure, GCP). Hands-on experience with Machine Learning applications including NLP, Computer Vision, and Time-Series Analysis. Adept at Agile methodologies and collaborating with cross-functional teams to deliver high-quality software solutions.

## SKILLS

**Programming Languages:** Python, Java, J2EE, C, JavaScript, ES6

**Frameworks & Libraries:** Spring Boot, Node.js, React, Redux, Bootstrap, HTML5, CSS3

**Web & API Technologies:** RESTful Web Services, OAuth2, JWT, Microservices Architecture

**Databases & Data Engineering:** MySQL, PL/SQL, SQL Loader, SSMS, Snowflake, ETL, SSIS

**Cloud & DevOps:** AWS, Azure, Google Cloud Platform (GCP), Docker, Jenkins, Git, GitHub, Maven, Gradle

**Machine Learning & AI:** Supervised Learning, Unsupervised Learning, Neural Networks, NLP, Computer Vision, Time-Series Analysis, Image Classification

**Tools & IDEs:** PyCharm, Eclipse, NetBeans, Spring Tool Suite, Visual Studio, Google Colab, Postman, JIRA

**Methodologies & Operating Systems:** Agile, Scrum, Waterfall, SDLC, Windows, macOS, Linux

## EXPERIENCE

CVS HEALTH, USA

**Software Engineer**

| Feb 2025 – Present

- Designed, developed, and maintained scalable full-stack web applications using Java, Spring Boot, React, Redux, Node.js, HTML5, CSS3, and JavaScript.
- Built and optimized RESTful APIs secured with OAuth2 and JWT, improving response times by 20% and enhancing system reliability.
- Deployed and managed microservices across AWS, Azure, and GCP environments, including serverless functions and cloud storage solutions.
- Automated CI/CD pipelines using Jenkins, Maven, and Gradle, ensuring faster and reliable deployments.
- Designed and optimized relational databases using MySQL, Snowflake, and PL/SQL, including schema design, stored procedures, and query optimization.
- Developed ETL pipelines using SSIS and Python scripts for large-scale data migration and transformation.
- Applied Machine Learning techniques (NLP, Computer Vision, Time-Series Analysis) to business datasets to improve predictive analytics and automation.
- Conducted unit and integration testing, code reviews, and technical documentation to maintain high-quality coding standards.

KAISER PERMANENTE, USA

**Software Engineer Intern**

| Aug 2024 – Dec 2024

- Assisted in developing web applications and RESTful APIs using Java, Spring Boot, and React to support internal business workflows.
- Supported database design, query optimization, and ETL processes to enable timely and accurate reporting.
- Participated actively in Agile ceremonies including sprint planning, daily stand-ups, backlog grooming, and retrospectives.
- Performed unit testing and contributed to improving code quality and documentation practices.

COGNIZANT, INDIA

**Software Developer**

| Aug 2019 – Dec 2022

- Developed enterprise-level applications using Java, J2EE, Spring Boot, and RESTful services following best practices and design patterns.
- Built responsive and dynamic front-end applications using React, Redux, Bootstrap, HTML5, CSS3, and JavaScript.
- Designed, optimized, and maintained databases using MySQL, SSMS, and Snowflake, including complex queries and stored procedures.
- Developed and maintained ETL workflows to process large datasets from multiple data sources while ensuring data quality.
- Participated in cloud migration projects, refactoring monolithic applications into microservices on AWS and Azure.
- Implemented CI/CD pipelines using Jenkins, Maven, and Gradle to automate build, test, and deployment processes.
- Collaborated with business analysts and stakeholders to gather requirements and deliver technically feasible solutions.
- Mentored junior developers, providing guidance on coding standards, debugging, and best practices.

## EDUCATION

**Masters in Computer & Information Science**

| Dec 2024

Southern Arkansas University, USA
