

BHAVANI KASTHURI

• kasthuribhavani63@gmail.com • +1 513.544.8940 • [LinkedIn](#) • Ohio, Cincinnati (Open to Relocate)

TECHNICAL SKILLS:

Programming Languages: Java, JavaScript, Python, SQL, NOSQL, HTML 5, CSS3

Frameworks: Selenium WebDriver, TestNG, JUnit, Cucumber, Cypress, Appium, Rest Assured, Postman, Jira

Databases: MySQL, MSSQL, PostgreSQL, Oracle DB, MongoDB

Software's and Tools: Git, GitHub Actions, Gradle, Maven, Postman, IntelliJ, VS Code, Jira

DevOps: Docker, Kubernetes, Jenkins, Terraform

Cloud Technologies: AWS (Lambda, EC2, S3, MSK, EKS, ECS, ECR, Cloud Watch, API Gateway, IAM Policy), Azure

PROFESSIONAL EXPERIENCE:

Student Worker – Bearcats Package Center, Cincinnati

Jan 2024 – Present

- Optimized package management workflows by integrating AWS services like S3 for secure data storage and Lambda for automating sorting updates, reducing manual input errors by 25% and processing delays by 15%.
- Enhanced system efficiency and communication by monitoring performance for a 30% improvement in delivery speed and implementing automated notifications, increasing student satisfaction by 20%.

Senior Software Engineer – Capgemini Technology Services

Apr 2022 – Dec 2023

- Designed and implemented Selenium WebDriver automation frameworks with Java, TestNG, and Cucumber, cutting manual testing by **40%** and boosting test coverage by **25%**.
- Developed Page Object Model (POM) frameworks, reducing maintenance by **30%**, and automated cross-browser UI testing, enhancing testing efficiency by **35%**.
- Integrated test suites into CI/CD pipelines using Jenkins and Maven, slashing deployment cycle time by **20%**. Performed API testing with Rest Assured and Postman, ensuring **99%** data integrity.
- Conducted mobile testing with Appium, improving issue resolution speed by **15%**, while creating comprehensive test plans, test cases, and test scenarios, reducing ambiguity by **25%**.
- Managed defects using Jira and TestRail for test case tracking, speeding issue resolution by **30%** while adhering to Agile methodology.
- Applied BDD (Gherkin) to enhance collaboration and alignment between stakeholders and developers.

Software Engineer – Capgemini Technology Services

Feb 2021 – Mar 2022

- Conducted manual testing for web and mobile applications, identifying and logging defects using Jira, resulting in a 15% improvement in defect resolution time.
- Designed test plans and test cases based on functional requirements and user stories, ensuring 100% test coverage across all key functionalities.
- Performed functional, regression, and system integration testing, improving software stability and usability by **20%** based on user feedback.
- Prepared test data and managed test environments, simulating real-world conditions, which reduced validation time by **25%**.
- Collaborated with developers to perform root cause analysis for defects, improving defect detection by **30%** in the development phase.

EDUCATION:

University of Cincinnati, Cincinnati, Ohio

Apr 2025

Master of Science: Information Technology (IT)

Malla Reddy College of Engineering & Technology, Hyderabad, India

May 2021

Bachelor of Technology: Information Technology (IT)

CERTIFICATIONS:

- AWS Certified Developer Associate (DVA-C02)
- AWS Certified Solution Architect (SAA-C03)
- Microsoft Azure Fundamentals (AZ-900)
