Jersey City, NJ | [GitHub](#) | www.linkedin.com/in/bhavitha137/ | 347-687-3931 | bhavitha411@gmail.com

PROFESSIONAL SUMMARY

Data & Analytics Engineer with 4+ years of experience delivering data-driven solutions and reports for business-critical decision-making. Skilled in SQL, Python, Databricks (PySpark, SQL), and Snowflake, with expertise in building dashboards, automated pipelines, and scalable data solutions. Experienced in cross-functional collaboration with engineering, business, and operational teams to define requirements and deliver actionable insights. Strong communicator passionate about process improvement and problem-solving.

EDUCATION

Master of Science in Data Analytics and Visualization - GPA: 3.88 May 2025
Yeshiva University, Katz School of Science and Health New York, NY

Bachelor of Technology in Electronics and Communication Engineering May 2021
Amrita Vishwa Vidyapeetham Coimbatore, India

TECHNICAL SKILLS

Languages/Tools: SQL, Python, Tableau, Power BI, Looker, PostgreSQL, MySQL, SQL Server, MS Office, VBA, SNOW, SAS, Git, Snowflake
Technologies: Data Modeling, ML & AI, LLMs, ETL, Databricks, Prompt Engineering, A/B Testing, Statistics, REST APIs, MongoDB, Pyspark
Cloud Platforms: AWS(Lambda, SES, DynamoDB, EC2, S3, VPC, IAM), Azure(Azure Function App, App Service, Blob Storage)

WORK EXPERIENCE

Data Engineering Consultant May 2025 – Present
Access – Stealth Startup New York, NY

- **Built automated data pipelines** in **Python, SQL, and Selenium** to collect, clean, and enrich multi-source **event data**, integrating outputs into **Supabase**; initiated **Databricks** and **Snowflake** POCs for **scalable processing**.
- Supported cross-functional teams to refine business requirements, ensuring analytics outputs aligned with stakeholder needs.
- **Designed Tableau dashboards** and an **ML-powered lead scoring app (Streamlit)** that enabled 10+ sponsors to identify and target high-quality leads with greater precision.

Automation Analyst Jan 2025 – May 2025
Yeshiva University New York, NY

- Demonstrated strong problem-solving skills to **streamline repetitive staff workflows** by building one-click **automation tools** using **Python** and **Power Automate**; replaced scattered systems with unified, user-friendly platforms for non-technical teams.

Data & AI Engineer (Internship) Jan 2025 – May 2025
Shevet Glaubach Career Center, Yeshiva University New York, NY

- **Developed a GPT-4 Turbo-powered chatbot** using **RAG architecture** with **LangChain** and **ChromaDB** to assist students with accessing career resources and guidance; contributed to prompt design, embedding workflows, and knowledge base structuring.
- Led **Azure deployment** of the chatbot and **built Power BI dashboards** to help SGC track student engagement and improve career services through data-driven insights; conducted an **Azure Databricks** POC for scalable processing.

Data Analyst May 2024 – Dec 2024
BIOTECH XYZ New York, NY

- **Cleaned and transformed** large datasets to ensure quality and consistency; **built Tableau dashboards** to deliver insights for **sponsor targeting** and **audience segmentation strategies**.

Systems Engineer (Focused on Operational Analysis) Jun 2021 – Dec 2023
Tata Consultancy Services Bangalore, India

- Collaborated with stakeholders to translate **telecom operations** needs into **SQL-based reporting specs**, and built and maintained **data pipelines in Databricks (PySpark)** to monitor **SLA adherence** across 100+ project orders, reducing service delays by 50%.
- **Designed** interactive **Tableau dashboards** for order metrics and technician workflows, cutting processing time by 50% and improving decision accuracy through real-time insights.
- **Developed predictive allocation models** using historical data to **optimize field delivery**, improving on-time completion by 70%.
- **Leveraged Databricks with PySpark** for **large-scale telecom data processing**, enabling faster SLA monitoring and reporting.

PROJECTS

AI-Powered BISINDO Sign Language Translator | Scikit-Learn, Tensorflow, Pytorch, MediaPipe, Transformers Jan 2025

- **Built a real-time sign language translation tool** to improve accessibility for Deaf BISINDO users, using **gesture recognition** via **MediaPipe** and **Transformers**. Led end-to-end **ML lifecycle** from data prep to deployment with animated avatar output.

CMS Claims and Beneficiary Data Dashboard | Tableau Dec 2024

- **Analyzed** CMS claims and beneficiary data to **identify key drivers** of **chronic disease** admissions and inefficiencies in \$1B+ reimbursements, delivering **Tableau dashboard insights** that informed cost-saving and healthcare optimization strategies.

SQL Data Warehouse (Medallion Architecture) | SQL Server, T-SQL, Excel Dec 2024

- **Built a SQL Server data warehouse** using **Medallion Architecture**, with **ETL pipelines** (stored procedures), **T-SQL optimization**, and **star schema modeling** to deliver clean, analysis-ready datasets for **product, customer, and sales insights**.

CERTIFICATIONS

- Advanced Certification in Data Science | IIIT Bangalore
- Google Advanced Data Analytics Professional Certificate
