Striving to fix real-time problems with my skills.

EDUCATION

Master's of Professional Studies in Health Information Technology University of Maryland, Baltimore County (UMBC)	Jan 2022 - Dec 2023
Bachelor of Pharmaceutical Sciences GITAM University	Aug 2016 - Aug 2020

PROFESSIONAL SUMMARY

Dedicated and detail-driven Quality Assurance & Control Specialist with 4+ years of experience across pharmaceutical manufacturing, medical device inspection, and healthcare payment operations. Skilled in GMP compliance, AQL inspections, CAPA management, documentation auditing, and regulatory readiness. Adept at working with SAP, EMRs, and analytical instruments. Strong communicator, cross-functional collaborator, and committed to maintaining the highest quality standards in regulated environments.

SKILLS

Quality & Compliance: GMP, cGMP, CAPA, AQL Sampling, FDA Audit Readiness, SOP Writing, Root Cause Analysis, Risk Assessment, HIPAA Compliance
Analytical Techniques: HPLC, GC, UV-Vis Spectrophotometer, Disintegration, Dissolution, Stability Studies
Documentation & Systems: SAP, Master Batch Record (MBR), Device History Records (DHR), BOM Review, Microsoft Excel, EMR
Process Optimization: 5S, Lean Documentation, Calibration Procedures, Inspection Readiness, Non-Conformance Reporting
Regulatory Knowledge: FDA, ICH Q10, ISO 13485, USP, DEA Regulations
Soft Skills: Attention to Detail, Communication, Cross-functional Collaboration, Report Writing

EXPERIENCE

Quality Assurance Specialist Philips, Pennsylvania, USA	Jul 2024 – Present
- Conducted thorough inspections of incoming materials and finished goods using SAP, ensuring full compliance with GMP, ISO, and internal quality standards. - Created and managed Non-Conformance Material (NCM) reports, performing root cause analysis and implementing corrective and preventive actions. - Verified Device History Records (DHR) and Bill of Materials (BOM) for completeness and accuracy prior to product release. - Utilized Excel to track quality metrics, generate inspection trends, and support continuous improvement initiatives. - Coordinated inspection schedules using Outlook and maintained effective communication with cross-functional teams to resolve quality issues. - Collaborated with Supplier Quality teams to evaluate material conformance and reduce incoming defects. - Participated in internal audits and maintained audit-ready documentation to ensure inspection readiness for regulatory agencies. - Developed enhanced inspection data traceability systems, improving documentation integrity and recall efficiency. - Standardized AQL sampling techniques and implemented consistent visual inspection protocols across product lines. - Supported equipment calibration checks and ensured accuracy of tools used during quality inspections.	
Healthcare Payment Analyst Wipro LLC	Mar 2021 – Jan 2022
- Posted large volumes of EOBs and insurance payments into EMR systems, ensuring data integrity and strict adherence to HIPAA regulations. - Reconciled payer remittances across Medicare, Medicaid, and commercial payers, ensuring proper claim application and variance resolution. - Analyzed denial trends and underpayments, escalating issues to billing and compliance teams for corrective action. - Maintained detailed, audit-ready transaction records and supported quality assurance during internal reviews. - Developed Excel-based tools to automate reconciliation and improve accuracy in payment posting workflows. - Collaborated with QA and compliance teams to revise SOPs, reduce rework, and enhance overall process compliance. - Prepared daily and weekly reports highlighting payment discrepancies, adjustment patterns, and revenue trends. - Participated in compliance training and applied updates to ensure alignment with evolving healthcare regulations. - Assisted in internal data integrity audits and implemented improvements in transaction tracking systems. - Supported performance improvement initiatives by sharing insights into denial root causes and payment errors.	
Pharmacist Visakha Hospitals	Dec 2021 – Sept 2022
- Dispensed prescription medications with precision and provided clinical counseling on dosage, side effects, and drug interactions to patients. - Managed the pharmaceutical inventory during the COVID-19 pandemic, ensuring uninterrupted access to life-saving medications and critical supplies. - Developed and implemented inventory tracking systems to forecast high-demand medications and reduce emergency shortages.	

- Ensured proper storage of cold-chain medications by maintaining thermal logs and adhering to regulatory standards for temperature-sensitive drugs.
- Supported hospital leadership with demand forecasting, emergency stock replenishment, and supply chain coordination during crisis periods.
- Performed compliance reviews on labeling, storage conditions, and expiry monitoring according to hospital protocols.
- Collaborated with physicians to update patient medication plans in real-time, especially during critical care interventions.
- Maintained accurate records of all dispensed medications to support billing, traceability, and audit readiness.
- Trained junior pharmacy staff in safe handling procedures, documentation practices, and pharmacovigilance basics.
- Contributed to internal quality audits and ensured that the pharmacy remained inspection-ready at all times.

Quality Control Intern | *Dr. Reddy's Laboratories*

Apr 2019 - Jun 2019

- Conducted in-process and final quality testing including weight variation, friability, disintegration, and dissolution as per GMP guidelines.
- Operated analytical instruments such as HPLC, GC, and UV spectrophotometers to carry out routine testing of pharmaceutical samples.
- Assisted in drafting, revising, and standardizing SOPs for laboratory operations to improve consistency and compliance.
- Participated in calibration, cleaning, and preventive maintenance of lab equipment to maintain test accuracy and regulatory readiness.
- Supported stability studies by preparing and tracking sample batches, contributing to long-term product reliability evaluations.
- Managed quality documentation using SharePoint, ensuring fast retrieval and proper version control during internal audits.
- Performed data verification checks prior to test result submissions and helped maintain data integrity across lab records.
- Identified deviations in testing procedures and collaborated with senior analysts on CAPA planning and documentation.
- Contributed to regulatory filing documentation and assisted with batch release processes under supervision.
- Learned best practices for laboratory quality control, documentation, and compliance through hands-on mentorship.

RELEVANT PROJECTS

- **Pharmaceutical Quality Risk Management System – Capstone Project, UMBC (2023)**
Designed a comprehensive QRM system based on ICH Q9 principles for a hypothetical sterile manufacturing facility. Mapped out potential failure modes using FMEA and developed a risk matrix for microbial contamination. Created SOP templates for deviation reporting and CAPA execution. The project emphasized preventive controls and audit readiness aligned with FDA expectations.
- **Stability Testing of Ibuprofen Tablets – Independent Study, GITAM University (2020)**
Executed a six-month real-time and accelerated stability study on Ibuprofen tablets under ICH guidelines. Monitored physical and chemical parameters using HPLC, UV-Vis spectrophotometry, and disintegration tests. Drafted detailed stability protocols and final reports mimicking industry-standard documentation. Findings highlighted packaging material impacts on drug shelf-life and were presented in a university poster symposium.
- **Validation of Cleaning Procedures in a Simulated GMP Lab – UMBC Course Project (2022)**
Developed a cleaning validation protocol for stainless steel equipment using riboflavin test and swab recovery techniques. Defined acceptance criteria per FDA and EMA guidelines. Used Excel to record residue recovery data and calculated %RSD to ensure reproducibility. The project included writing a mock regulatory audit response and emphasized documentation traceability and compliance with GMP Annex 15.

HONORS, ACHIEVEMENTS & PUBLICATIONS

- Certified Pharmacist by the government of India, credential demonstrating foundational knowledge of quality tools, compliance frameworks, and continuous improvement practices.
- Completed certification covering FDA 21 CFR Parts 210/211, deviation management, and audit preparedness.
- Quality Excellence Award: Recognized for leading initiatives that reduced inspection-related rework through AQL standardization and data-driven SOP revisions.
- Honored for enhancing payment posting accuracy and reducing denial processing time by implementing Excel-based audit tools.
- Lean Six Sigma Yellow Belt Certified: Applied DMAIC methodology to university-led quality improvement case studies; used for CAPA and deviation reduction scenarios.
- Presented capstone project on "Pharmaceutical Quality Risk Management Systems," highlighting industry-aligned FMEA analysis.
- Led peer group in preparing mock GMP inspections and documentation reviews for simulated sterile production lab environments.
