Bsevak@asu.edu | 669-254-9798 | www.linkedin.com/in/bhavya-sevak-48515b215

With a strong foundation in biomedical sciences and ongoing graduate studies in Biomedical Informatics at Arizona State University, I am passionate about leveraging data to transform healthcare. My hands-on experience with molecular biology techniques, combined with skills in R, SQL, and Python, positions me to contribute meaningfully to data-driven solutions that improve patient outcomes and advance healthcare research.

Experience

Molecular and Chromatography Intern

Ahmedabad, India (May – June 2021)

- Gained hands-on experience in **DNA extraction, PCR setup, and electrophoresis**.
- Conducted chromatography experiments using **HPLC and HPTLC** technologies.
- Developed molecular biology protocols for various sample types.

Research Project: Effect of Human Chimeric IL-15 on T-cell Activation

(Nov 2022 – April 2023)

- Applied **in vitro** and **in vivo** techniques to assess **T-cell activation** using IL-15.
- Skills gained: **Animal handling, cell culture, probe designing, R analysis, gel electrophoresis**.
- Worked on **clinical applications**, analyzing liquid biopsy reports from **cancer patients**.

Skills

Bioinformatics & Laboratory Techniques:

- **Molecular Biology:** DNA sequencing, PCR, Electrophoresis
- **Chromatography:** HPLC, HPTLC, DNA Extraction
- **Data Analysis:** R, SQL, Liquid Biopsy Analysis

Technical & Programming Skills:

- **Software:** MS Excel, Word, PowerPoint
- **Programming Languages:** SQL, HTML, Basic R, python, java, SAS

Education

Master of Science in Biomedical Informatics (*Expected Graduation: 2026*)

Arizona State University, Tempe, Arizona

Master of Science in Biotechnology (*Graduated: 2023*)

Nirma University, Gujarat, India

Bachelor of Science in Microbiology (*Graduated: 2021*)

BKNMU, CCSIT, Gujarat, India
