Experience

CPA Ontario, IT Proctor / Technical Support (Contract) September 2023 - Present

- Provided on-site IT support during professional certification for up to 900 candidates per exam, ensuring secure and uninterrupted operation of exam software.
- Resolved hardware, network, and software issues in real time maintained downtime under 30 seconds per candidate.

CPA Ontario, Software QA Tester (Contract) May 2025

- Executed extensive predefined test cases on proprietary exam software to verify stability under various system conditions.
- Identified and documented defects, crashes, and irregular behaviours for review by the QA and development teams.

Education

York University, Honours Bachelor of Science in Computer Science May 2025

- **Relevant Coursework:** Advanced Software Engineering, Data Structures and Algorithms, Big Data Systems, Data Mining, Introduction to Machine Learning, Introduction to Artificial Intelligence, Robotics

Projects

Heater

- Designed and developed a service-based social media platform for sharing opinions, featuring user authentication, personalized profiles, real-time commenting, and post feeds.
- Integrated React frontend with a C# .NET backend and PostgreSQL database using RESTful APIs.

LevelUp

- Built a full-stack fitness web app allowing users to track meals, workouts, and compare goals with their friends and followers.
- Implemented user dashboards, dynamic goal setting, and leaderboard logic using Django REST framework and Vue.js.

Library Web Store

- Developed a digital library and e-commerce platform with user authentication, cart functionality, and admin dashboards.
- Built modular backend and GUI in Java using Maven; implemented book and order data using MySQL.
