Horry Georgetown Technical College, Conway, SC

Dec 2023

Associate in Science, GPA: 3.6
Graduate Cum Laude
Certificate: Applied Science in University Studies

PROFESSIONAL EXPERIENCE

Lowe's Companies Inc., Myrtle Beach, SC

June 2021 – Present

Merchandising Service Associate

- Leveraged internal retail systems and handheld smart devices to execute planogram-based resets, digital pricing updates, and inventory adjustments, ensuring visual consistency and operational accuracy across departments.
- Utilized productivity software and mobile tech tools (e.g., Smart Project, SharePoint, company specific mobile applications) to manage task assignments and completion tracking, increasing team efficiency during high-volume resets.
- Collaborated with cross-functional teams, including vendors, department managers and corporate support, to ensure timely and accurate merchandising rollouts.
- Provided on-the-spot coaching and informal training to new team members on proper use of internal technology tools as well as safety procedures and store protocols.
- Frequently recognized with multiple Service Star Awards (2021-2025) for excellence in customer service, problem resolution, and support in high-stakes sales environments.
- Contributed to a high-performing team by analyzing store layout efficiency and proposing adjustments to product placement strategies that aligned with customer behavior data and corporate merchandising objectives. These efforts contributed to our Merchandising Service Team earning a "Best in the Region" performance award, recognizing top achievement across one-third of all Lowe's locations in the U.S.

Chesterbrook Elementary & Middle School, Sterling, VA

Jan 2017 – July 2019

Technology & Innovation Teacher

- Designed and served as the primary instructor for two core technology-based courses, including an Innovation course focused on hands-on STEM projects, introducing students to core principles of engineering, physics, and beginner-level coding.

- Taught foundational programming concepts and digital literacy skills using Python, Java, Scratch, and the Microsoft Office Suite, with emphasis on Excel, Word and PowerPoint usage for project-based learning.
- Integrated AI-adjacent thinking skills, such as logic building, basic algorithms, and problem-solving into daily instruction.
- Maintained all instructional technology including smartboards, tablets, and desktop computers, ensuring seamless tech integration in the classroom, administrative offices, and computer lab.
- Developed and adapted technology-enhanced lesson plans, aligning with educational standards while fostering student creativity and innovation.
- Acted as technology point of contact for faculty, providing informal training and troubleshooting support for both hardware and software tools.
- Developed lesson plans and managed classroom activities, keeping students on track with learning objectives.

Junior Kindergarten Teaching Assistant

- Supported the lead teacher with early childhood education, with some opportunities to include technology-assisted learning tools into literacy and math activities.
- Provided supplemental instruction and classroom management, stepping in as substitute teacher as needed.
- Assisted in the preparation of learning materials and digital content, helping foster early engagement with interactive technologies.

Congressional Schools of Virginia, Falls Church, VA

June 2006 – Dec 2016

Extended Hours Program Counselor

- Supervised the activities of over 100 K-8 students daily, ensuring a safe and structured environment.
- Managed attendance, composed daily curriculum, and facilitated engaging activities.

Lead Senior Counselor

- Led daily activities, off-campus trips, and sports programs for children ranging from elementary to junior high school ages.
- Trained and mentored new counselors, ensuring a consistent and positive experience for all campers.
- Coordinated camp-wide events and collaborated with management to enhance program offerings.
