

Srija Dasgupta

United States, 321-209-3174

Gmail:dasgupta.srija97@gmail.com

Summary:Results-driven Business Analyst with 5+ years of experience bridging business needs and technical solutions across large-scale environments. Proven ability to deliver data-driven insights, process optimization, and stakeholder alignment that drive measurable business impact. Skilled in requirements gathering, KPI tracking using JIRA, Workday,Miro, and data visualization with expertise in SQL, Tableau. Adept at collaborating with product, engineering, and leadership teams to influence decisions and support strategic growth.

Core Skills:

Business Analysis: Requirements Gathering, Process Mapping, Stakeholder Management, Agile/Scrum, UAT, KPI Development, Process Improvement, SAFE

Data & Analytics: SQL, Python, Power BI, Tableau, **VBA (Excel Automation)**, Predictive Modeling, A/B Testing, Statistics

AI/ML & HR Tech: AI Chatbots, Learning Analytics, Workforce Skill Optimization, **Salesforce Analytics Cloud, Workday HCM, ADP Workforce Now**, Azure AI, Microsoft Fabric

Collaboration Tools: Jira, Confluence, Azure, Kubernetes, Git, Jenkins, Miro

Professional Experience

Newbern Excel – Business Analyst: Jan 2024 – Present

- Partnered with business stakeholders to define KPIs and captured requirements in Confluence, translating them into 100+ user stories and acceptance criteria in Jira, boosting reporting efficiency by 30%.
- Designed Jira dashboards and **ETL-driven SQL/Power BI pipelines** to track system performance and customer engagement, enabling VP-level decision-making.
- Automated manual HR data workflows using **VBA in Excel**, reducing payroll reporting effort by 25%.
- Built **ETL processes integrating Workday HCM and ADP data** into BI dashboards, providing HR leadership with workforce analytics (attrition, payroll accuracy, compliance tracking).
- Facilitated sprint planning and backlog refinement in Jira, ensuring business priorities aligned with engineering deliverables across teams.

Sunixa Software Solutions – Business Analyst: Aug 2023 – Dec 2023

- Led the **SmartAssist Bot project**, integrating an AI chatbot with Confluence to centralize knowledge management, reducing internal support queries by 45%.
- Built **SQL-driven Tableau dashboards and Salesforce reports**, enabling sales leaders to monitor funnel performance and customer adoption trends.
- Automated weekly reporting using **Excel VBA macros**, reducing manual effort for support teams by 12 hours per week.
- Facilitated UAT sessions and logged test cases, feedback, and enhancements in Jira, ensuring system improvements aligned with stakeholder needs.

Tenex Software Solutions – Business Analyst: Feb 2023 – Aug 2023

- Elicited and documented detailed requirements (functional, nonfunctional, compliance) from election committee stakeholders in Confluence, ensuring alignment with legal standards (e.g., ballot authentication, voter eligibility, audit trails).
- Translated needs into structured user stories in Jira, prioritizing secure login flows, audit logging, and real-time dashboards to support election transparency.
- Conducted process analysis (AS-IS/TO-BE) with swimlane diagrams, identifying bottlenecks in voter registration and tallying.
- Implemented **Salesforce dashboards** for tracking committee communications and stakeholder engagement, reducing email-based manual tracking by 40%.
- Managed sprint planning, backlog grooming, and release scheduling in Jira to align development cycles with election timelines, reducing delays by 25%.
- Oversaw UAT documentation and test case tracking in Jira, closing traced test issues and compliance gaps ahead of go-live.

CGI Ltd. – Software Engineer: Nov 2020 – Jul 2021

- Developed an Order Management App using Spring Boot microservices and REST APIs, improving order processing reliability.
- Integrated Kafka-based notifications, reducing missed updates by 40%.
- Enhanced code quality with JUnit testing and SonarQube, and deployed containerized apps on Azure.

University of Central Florida – Teaching Assistant: Aug 2021 – May 2023

- Supported 400+ students across courses in C, Algorithms, Computer Architecture, and AI.
- Mentored students on object-oriented programming (C, Java) and developed solution-oriented course material.

Education

- **University of Central Florida, Florida, FL(August,2021-May,2023):** Masters in Computer Information Science (GPA:3.7/4.0)
- **Techno India College of Technology, India (August,2016-July,2020):** B.Tech. in Computer Science & Engineering (GPA: 3.7/4.0)

Projects

Agile Process Optimization with AI-Powered Insights

- **Objective:** Enhance sprint predictability and identify risk factors in product delivery.
- Analyzed historical velocity and throughput data to uncover inefficiencies.
- Applied predictive models to highlight risks causing sprint delays.
- Introduced burndown and Kanban visualizations to improve transparency for stakeholders.
- **Tools Used:** Python, Jupyter Notebook, Jira, Confluence, Power BI

Customer Journey Analysis & Automation

- **Objective:** Reduce onboarding friction and improve customer satisfaction.
- Conducted workshops to map the customer journey and identify drop-off points.
- Defined measurable KPIs such as onboarding time, CSAT, and retention.
- Collaborated with engineering to automate onboarding steps, including an AI chatbot for FAQs.
- **Tools Used:** SQL, Python, Power BI, Excel, Jira, Chatbot Frameworks

KPI-Driven Sales Dashboard & Process Improvement

- **Objective:** Improve sales pipeline visibility and track KPIs to support data-driven decisions.
- Gathered requirements from stakeholders and defined KPIs (conversion rate, churn, lead time).
- Designed and developed interactive dashboards for leadership to monitor performance.
- Automated reporting workflows, reducing manual effort and ensuring real-time insights.
- **Tools Used:** Power BI, SQL, Excel, Jira, Tableau, Data Visualization.

Certifications:

Agile Project Management(Google)
Lean Six Sigma(Coursera)
Certified Scrum Master (Scrum Alliance)
Business Process Analysis (SAP Signavio)
