Relevant Experience

Taidou

Boston, MA

Advisory Intern – Deal Advisory & IT Due Diligence

Jun 2025 – Aug 2025

- Conducted IT due diligence for clients in financial services and healthcare, evaluating infrastructure scalability and digital readiness to inform investment and acquisition decisions.
- Mapped business and IT process flows for target companies; documented risks, stated controls, and evidence paths to support audit procedures and diligence findings.
- Optimized internal CRM systems by enriching Salesforce data, segmenting leads, and automating workflows, resulting in improved outreach accuracy and streamlined client management.
- Designed KPI dashboards (pipeline value, conversion, velocity) and defined data lineage/logic so finance and business development could trust consistent, reconciled metrics across systems.

Deloitte Digital Salesforce Journey

Boston, MA

Salesforce Journey Intern

Feb 2025 – Apr 2025

- Engaged with Deloitte consultants and Salesforce experts to deepen knowledge in CRM strategy, cybersecurity, and cloud resilience, contributing insights during project simulations and peer discussions.
- Applied Salesforce training on data security and compliance through audit walkthroughs and drafting test steps for CRM controls, including configuration/change management and user access reviews.

Metropolitan Police (Greater London law enforcement)

London, United Kingdom

Designated Detention Officer

Feb 2023 – Aug 2024

- Collaborated with FBI, MI5, and Border Force to ensure seamless coordination across missions. Used crisis management skills and rapid decision-making to ensure staff and detainee safety during high-alert crises.
- Implemented advanced detention protocols tailored to high-risk detainees involved in federal offences, ensuring compliance with court-mandated regulations. Followed intake procedures and conducted risk assessments, ultimately mitigating security threats and enhancing overall security.
- Overhauled detainee records database by streamlining legal procedures, standardizing data collection and enhancing data retrieval, resulting in better documentation and processing.

Relevant Projects

Forward Program | McKinsey & Co.

Sep 2024 – Dec 2024

- Completed self-paced and rigorous courses to enhance consulting-relevant skills, applying them through reflections and assignments to improve decision making and structured problem-solving, story-driven insights, stakeholder communication.

AWS AI & ML Challenge | Amazon & Udacity

Jul 2025

- Applied AI/ML concepts including supervised learning, model evaluation, and prompt engineering through AWS Labs and real-world case studies; created a generative AI app using PartyRock to demonstrate no-code development on Amazon Bedrock.
