Methodologies: Forecasting, A/B Testing, Root Cause Analysis, Trend Analysis

Logistics Systems: GPS Fleet Tracking, Route Optimization, Load Balancing Algorithms

PROFESSIONAL EXPERIENCE

Data Analyst

Clean Harbors Environmental Services – Bakersfield, CA

Aug 2023 – Apr 2025

- Developed a predictive fleet logistics model using SQL and R, decreasing idle time by 20% and generating \$50K+ in annual savings.
- Designed real-time Power BI dashboards for regulatory and leadership reporting, reducing preparation time by 40%.
- Revamped truck routing strategies, improving delivery efficiency by 25% and expanding access to underserved areas.
- Introduced GPS-based tracking systems, cutting fuel usage by 10% and enhancing fleet performance visibility.
- Built KPI monitoring tools for fleet maintenance, shortening technician response times by 30% and improving asset reliability.
- Implemented a load balancing solution that increased maintenance fleet utilization by 15%.

Notable Impact: Trusted by senior leadership for delivering data-driven innovations that significantly enhanced logistics performance and cost control.

Data Analyst

Banks Energy – Bakersfield, CA

Jan 2021 – Jun 2023

- Created SQL-based ETL pipelines to unify KPI reporting across five departments, streamlining operations and enhancing data consistency.
- Designed and deployed an R-powered forecasting engine, improving planning accuracy by 10% and enabling a \$200K cost reduction.
- Led workforce analytics initiatives that reduced overtime by 18% and boosted productivity by 12%.
- Automated key reporting workflows with Excel/VBA, eliminating 90% of manual errors and saving 20+ hours monthly.
- Delivered executive dashboards that informed quarterly budget reviews and strategic capital investments.

Notable Impact: Elevated organizational data maturity through automation and analytics, earning recognition for cross-departmental collaboration and process improvement.

EDUCATION

California State University, Bakersfield

Bachelor of Science in Economics

Concentration: Finance
