- Performance & Reporting:** KPI dashboards, earnings variance, executive briefs, strategic financial storytelling
- Collaboration & Leadership:** Stakeholder alignment, financial consulting, cross-functional leadership, client success

PROFESSIONAL EXPERIENCE

Financial Analyst | Visa Inc. Feb 2025 – Present

- Supported the financial planning team by developing quarterly forecasting models using actual vs. projected data for three departments, improving variance tracking and helping improve accuracy for the next fiscal cycle.
- Built automated Power BI dashboards to visualize department-level expense trends and budget utilization, reducing manual reporting efforts by 15+ hours monthly.
- Conducted cash flow and working capital analysis to support operational spending decisions and collaborated with cross functional teams to reallocate underutilized budgets totaling \$850K.
- Assisted with scenario planning for regional investment strategies, incorporating FX impacts and inflation assumptions into planning decks for leadership reviews.

Financial Analyst | Fidelity Investments Jun 2024 – Dec 2024

- Worked alongside the finance team to update financial models for active investment projects, focusing on cost drivers and revenue assumptions for portfolios exceeding \$20M in value.
- Conducted variance analysis between forecasted and actual performance for business units, contributing data used to inform the Q3 planning cycle.
- Created financial reports that aligned with GAAP and internal audit standards, which were submitted to the compliance team during the semi-annual review process.
- Assisted in the risk assessment of fixed-income portfolios by gathering historical data and preparing comparison sheets across five asset classes.

Associate Financial Analyst | Axis Bank Jul 2021 – Aug 2023

- Managed a portfolio of 180+ small and mid-sized enterprise clients with total exposure of \$18.1M, providing advisory on short-term credit lines, working capital loans, and cash management services.
- Conducted financial statement reviews and industry benchmarking to support credit appraisals, leading to sanctioned loan amounts totaling \$13.3M across two years.
- Coordinated with risk and compliance teams to monitor borrower performance, reducing non-performing loan risk through periodic reviews and early flag reporting.
- Delivered quarterly performance updates to clients, helping guide them on cash flow optimization, debt structuring, and regulatory reporting changes.
- Participated in market outreach events and client onboarding initiatives, contributing to the acquisition of 12 new commercial accounts within the first year.

Account Executive | Bajaj Finance Jul 2017 – Aug 2019

- Managed customer onboarding and documentation for personal and business loan applications in India, processing over 100 applications valued above \$361,000 within a year.
- Analyzed customer income and credit data to assist in risk profiling and loan eligibility assessments.
- Educated borrowers on repayment schedules, interest structures, and financial planning tools, improving post-loan engagement and reducing defaults.
- Supported marketing campaigns by reaching out to potential customers, contributing to a 10% rise in lead-to-loan conversion within the regional branch.
- Ensured compliance with KYC and audit requirements, resulting in a zero-penalty record during external audits.

CERTIFICATIONS

- LBO & M&A Financial Modeling The Marquee Group
- Specified Person Certification / Corporate Agent IRDAI & Axis Bank
- MS-CIT Maharashtra State Certificate in Information Technology

EDUCATION

CFA Level I Candidate

Master of Science in Finance (STEM), Brandeis International Business School Aug 2023 – Dec 2024

Master of Business Administration (Finance), XIMR Sep 2019 – Jun 2021

Bachelor of Commerce, Smt. MMK College of Commerce & Economics Jul 2015 – Jun 2018

PROJECTS

SaraniaSat | Waltham, MA

- Developed advanced financial models to project profitability for SaraniaSat's Earth Observation Data services, incorporating detailed cost analysis, revenue forecasts, and break-even assessments to support strategic decision-making.
- Conducted market segmentation and identified key customers and strategic partners within the Precision Agriculture and Defense Data sectors, delivering actionable insights that informed business development and market expansion strategies.

Brandeis International Business School | Waltham, MA

- Created Financial Model of Marriott Vacations Worldwide Corporation by conducting industry and company research; built the model in Excel by analyzing historical data and estimated future values based on various scenarios to determine intrinsic value.
- Constructed a comprehensive leveraged buyout(LBO) model for Ciena Corp, performing detailed financial projections and structuring debt strategically to optimize returns in a hypothetical buyout scenario, supporting strategic acquisition planning.

Xavier Institute of Management Research Mumbai | India

Driving Factors: Fuel Prices, Pandemic, and Online Influences on Car Purchasing Decisions

- Conducted in-depth research on factors influencing car purchasing amidst rising fuel prices, the Covid-19 pandemic, and online influences.
- Analyzed the pandemic's impact on the shift from public to private transport preferences, leading to heightened interest in car ownership.
- Collected, surveyed, and studied online interactions to gauge customer responses to fuel prices and pandemic-driven changes in car preferences. Employed SPSS for hypothesis testing.
