

Asritha Cherukuri

Full Stack Developer

Cary, NC | +1 910-668-0418 | casritha10@gmail.com

SUMMARY

- Full Stack Developer with 4+ years of hands-on experience in designing, developing, and deploying scalable web applications.
- Proficient in Java, Python, SQL, etc., and multiple front-end and back-end frameworks, including Spring Boot, Spring Security, Hibernate, React.js, Angular.js, and Node.js.
- Skilled in developing RESTful APIs, SOAP services, and GraphQL, with hands-on experience in J2EE technologies like Servlets, JSP, JavaBeans, and JDBC for efficient enterprise application development.
- Experience in web technologies, including HTML, CSS, JavaScript, AJAX, XML, JSON, and Bootstrap, to create responsive and user-friendly applications.
- Expert in cloud technologies, with proficiency in DevOps practices such as CI/CD pipelines using Jenkins, and test automation with JUnit, Mockito, and SonarQube to ensure secure, scalable, and high-performing deployments.
- Well-versed in database management with MySQL, SQL Server, MongoDB, Oracle, and PostgreSQL, ensuring optimal data storage and retrieval.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Languages: Java, Python, R, SQL, PL/SQL, C, C++, C#

IDES: Visual Studio Code, Jupyter Notebook, PyCharm, Eclipse

Packages: NumPy, Pandas, Scikit-Learn, SciPy, TensorFlow

Frameworks: Spring (Boot, Security, MVC), Microservices, JSF, Hibernate, JUnit, Node.js, React.js, Express.js, Angular, REST APIs, SOAP, GraphQL, Mockito, Django, Flask

J2EE Technologies: Servlets, JSP, JavaBeans, JDBC, Java Mail

Web Technologies: HTML, CSS, JavaScript, AJAX, XML, JSON, jQuery, Bootstrap, Restful API, TypeScript

Cloud Technologies: AWS, Azure, GCP, Docker, Snowflake

Databases: MySQL, SQL Server, MongoDB, Oracle, PostgreSQL

Version Control/Other Tools: GitHub, Git, GitLab, Jira, Jenkins, Maven, Gradle, Jira, Jenkins, MS Excel, JMeter, RESTful Services, OAuth, JWT, SonarQube, Postman

Operating Systems: Windows, Linux, Mac

EXPERIENCE

PNC Financial, USA | Full Stack Developer

May 2023 - Present

- Maintained scalable web applications using Python, leveraging Django frameworks to improve backend efficiency, reducing API response time by 35% and enhancing application performance.
- Built and optimized RESTful APIs and microservices using Node.js, ensuring seamless integration with front-end applications.
- Considered dynamic and responsive user interfaces with HTML and CSS, enhancing accessibility and user engagement.
- Exploited NumPy and Pandas for data processing, analysis, and transformation, accelerating data retrieval and processing by 40%, leading to more efficient business intelligence and machine learning workflows.
- Deployed and managed applications on Azure, leveraging cloud computing for scalability, reliability, and cost efficiency.
- Led API testing and performance validation using Postman, ensuring robust application functionality and responsiveness.
- Managed PostgreSQL databases, which improved data retrieval speed by 30% and enhanced overall system reliability.

Cognizant Technology Solutions, India | Full Stack Developer

Mar 2021 - Jul 2022

- Automated build, test, and deployment processes using Jenkins and Agile methodologies, ensuring continuous integration and delivery.
- Settled and maintained scalable web applications using Java, Spring Boot, and Microservices architecture, improving system performance and handling up to 50,000 concurrent users.
- Implemented secure validation and authorization devices using Spring Security and JWT, reducing security vulnerabilities by 60% and ensuring compliance with industry standards.
- Constructed and optimized RESTful APIs for seamless communication between front-end and back-end systems, improving data exchange efficiency.
- Engineered responsive UI components using React.js, enhancing user experience and engagement.
- Managed databases efficiently with MongoDB, realizing optimized queries and indexing strategies to improve performance.

Magna Infotech, India | Full Stack Developer

Jun 2020 - Feb 2021

- Integrated JavaBeans and Hibernate for efficient data persistence, streamlining ORM functionality and reducing database interaction complexity.
- Implemented authentication and authorization protocols using OAuth, enhancing application security and access control.
- Integrated Snowflake for data warehousing solutions, enabling efficient data storage, retrieval, and analytics.
- Applied SonarQube for continuous code quality assessment, enhancing maintainability and reducing security vulnerabilities.
- Developed business logic and server-side components using Java and JavaScript, facilitating seamless system functionality.
- Optimized RESTful services, ensuring seamless front-end and back-end integration, improving API efficiency and enhancing data exchange reliability.

EDUCATION

Master of Science in Computer Science | University of North Carolina, Charlotte

Dec 2023

Bachelor of Science in Computer Science | Amrita ViswaVidya Peetham, India

Jun 2021

CERTIFICATION

AWS Certified Developer - Associate
