

Chaithanya Muddam

Business Data Analyst

Austin, TX | (571) 412-4721 | cpmuddam@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Results-driven Business Data Analyst with 4+ years of experience in healthcare analytics and IT services, specializing in Medicaid claims optimization, regulatory reporting, and clinical operations. Skilled in exploratory data analysis, building reporting pipelines, and creating dashboards using SQL, Python, Power BI, Tableau, and SSRS. Experienced in HIPAA-compliant data integration, data governance, and cross-functional collaboration to translate business needs into actionable insights. Proficient with AWS and Azure cloud platforms to deliver scalable, secure analytics solutions that support decision-making and compliance within Agile and Waterfall frameworks.

TECHNICAL SKILLS

Methodologies: SDLC, Agile, Scrum, Waterfall

Documentation: BRD, FRD, SRS, Process Flow Diagrams

Data Analytics & Visualization: Power BI, Tableau, Qlik Sense, SSRS, Excel (Advanced: PivotTables, Macros), KPI Dashboards, Interactive Reporting

Programming & Statistical Analysis: SQL (SQL Server, MySQL, PostgreSQL), Python (Pandas, NumPy, Matplotlib, Seaborn), R (Basic Statistical Modeling), EDA, Data Cleaning, Scripting for Automation

Cloud Platforms & Data Integration: AWS (S3, EC2, RDS, Lambda), Microsoft Azure (Data Factory, Synapse), MuleSoft (API Management), Alteryx (ETL), Postman (API Testing), Snowflake (Cloud Data Warehouse)

ETL & Data Engineering: SQL Server Integration Services (SSIS), ETL Pipeline Design, Data Profiling, Data Mapping, Data Validation, CMS & EHR Data Integration, Data Warehousing (EDW)

Agile Project Management: Kanban, Sprint Planning, UAT Planning & Execution, Stakeholder Communication, JIRA, Azure DevOps, Confluence, MS Project, SharePoint

Tools & Platforms: Salesforce (CRM), Oracle ERP, SAP, Figma (Wireframing), Microsoft Visio (Process Modeling), Jupyter Notebook, Git (GitHub, GitLab), HIPAA-Compliant Systems

Business & Strategy Techniques: Cost-Benefit Analysis, SWOT Analysis, Risk & Impact Assessment, SLA Monitoring, Client Onboarding Optimization, Claims & Compliance Reporting, Performance Benchmarking

WORK EXPERIENCE

Centene, USA | Business Data Analyst

| 09/2023 – Present

- Collaborate with clinical, data engineering, and product teams to translate complex business needs into scalable analytics solutions that optimize Medicaid claims, reduce costs, and improve member outcomes.
- Design interactive Power BI dashboards and write optimized SQL queries to track healthcare utilization trends, helping clinical teams increase outreach efficiency by 30% and reduce avoidable ER visits.
- Enhance Salesforce CRM with MuleSoft API integrations, enabling real-time visibility into support cases and sales, boosting first-call resolution by 20% and improving agent productivity.
- Conduct thorough validation and performance testing on 50+ healthcare data programs and ETL workflows, resolving data quality issues and system bugs to increase uptime and ensure HIPAA compliance.
- Optimize SQL Server and PostgreSQL database architectures, improving query speed and reducing retrieval time by 25%, while supporting scalable Medicaid data warehousing and regulatory compliance.

Bytes Soft Solution, INDIA | Business Data Analyst

| 11/2019 – 11/2021

- Collaborated with analysts and architects to design and deploy Power BI dashboards, improving client onboarding visibility by 40% and enhancing customer satisfaction.
- Conducted detailed EDA, data cleaning, and QA on CRM and operational datasets using Python and SQL, increasing report accuracy to 98% and boosting stakeholder confidence.
- Developed KPI dashboards to track SLA compliance, incident resolution, and resource use, driving a 25% improvement in SLA adherence through automated reporting.
- Authored BRDs, FRDs, and process flow diagrams using Visio and Confluence, translating client requirements into technical specs that minimized risks and accelerated Agile delivery.
- Built automated ETL pipelines with SSIS, reducing manual reporting effort by 40% and standardizing BI outputs across departments for scalability.
- Led root cause and GAP analyses to identify service bottlenecks, partnering with dev and QA teams to implement fixes that cut issue resolution times by 30%.
- Supported UAT by designing test plans and cases, validating data accuracy, and ensuring all dashboards met business and regulatory compliance before launch.

EDUCATION

Master of Science

Oct 2017 - Aug 2019

Manipal University, India

Bachelor of Science

Jun 2014 - Apr 2017

Osmania University, Hyderabad, India

CERTIFICATES

- Microsoft PL-300 (Power BI Data Analyst)
