

CHANDRASEKHAR REDDY MANUKONDA

chandra99manukonda@gmail.com | 405-455-0231 | LinkedIn | Edmond, USA

SUMMARY

Certified Food Science professional with a Master's in Food Science and Nutrition and proven experience in food safety, quality assurance, and regulatory compliance. Skilled in HACCP, GMP, and ISO 22000 implementation, audits, root cause analysis, and team training. Strong background in food testing, sensory evaluation, and product development. Committed to improving food quality systems and ensuring product integrity.

EDUCATION

University of Central Oklahoma

Master of Science in Nutrition and Food Science

Edmond, USA

Aug 2023- May 2025

EXPERIENCE

University of Central Oklahoma, Compass Group

Food Service Supervisor & Quality Analyst

Edmond, USA

Sep 2023 – May 2025

- Supervised day-to-day kitchen and service operations in a high-volume campus dining environment, ensuring adherence to food safety and sanitation standards.
- Conducted routine quality audits on food preparation, storage, and service areas, aligning with HACCP, FDA, and Compass Group protocols.
- Trained and led a diverse team of kitchen and front-line staff, improving service speed and maintaining high customer satisfaction scores.
- Monitored inventory, managed waste reduction strategies, and ensured compliance with portion control and nutritional guidelines.
- Collaborated with management to implement continuous improvement initiatives, enhancing operational efficiency and food quality.

Britannia Industries

Food Safety and Quality Manager

Chennai, India

July 2021 – May 2023

- Managed food safety and sanitation programs, ensuring strict adherence to HACCP and GMP to maintain product integrity.
- Conducted routine quality audits, pre-operational inspections, and root cause analyses to resolve food safety issues and implement corrective actions.
- Trained and mentored staff on QA/QC protocols, including allergen control, traceability, and sanitation best practices, fostering a culture of compliance and safety.
- Streamlined production workflows, optimized inventory management, and monitored critical control points (CCPs) to enhance operational efficiency and product quality.

Haldiram Snacks Food Pvt. Ltd.

Food Safety & Operations Technician

Chennai, India

Mar 2019 – Jun 2021

- Oversee food production and handling activities, ensuring compliance with safety and operational protocols.
- Conduct regular checks on raw materials, in-process items, and packaging lines for cleanliness, proper labeling, and hygienic conditions.
- Assist in implementing and monitoring Hazard Analysis Critical Control Point (HACCP) systems and Good Manufacturing Practices (GMP).
- Use instruments like pH meters, spectrophotometers, and moisture analyzers, and ensure they're properly calibrated.
- Maintain documentation such as critical control point (CCP) logs, sanitation records, swab results, and calibration reports.

RESEARCH ACTIVITY

Nutrient Retention in Soya Bean Oil Processing Methods (University of Central Oklahoma)

- Analyzed refining techniques' impact on nutritional compounds, helping optimize processes that preserved up to 85% of vitamin E and 90% of polyunsaturated fatty acids, improving product health value.
- Applied food chemistry principles to minimize nutrient loss during processing, contributing to a 15% boost in oil stability and a 20% extension in product shelf life without compromising quality.

CERTIFICATION

- Certified FSSC 22000v 6.0 Internal auditor, HACCP level 3, GMP, PCQI and GLP
- Serve Safe Food Protection Manager
- Lean Six Sigma
- SQF

TECHNICAL & LABORATORY SKILLS

- Statistical Analysis: SPSS, R, Excel
- Food Safety Systems: HACCP, FSMS, GMP
- Laboratory Testing: Pathogen Detection, Shelf-Life Analysis, Allergen Testing, Chemical Analysis, Sensory Testing, Internal Auditing, Data Logging, and Reporting
- Process Optimization: Lean Manufacturing, Root Cause Analysis
