

Charan Paladugu

Java Full Stack Developer

Fairfax, VA | +1 (202) 420 1999 | charan@myjobitmail.com | [LinkedIn](#)

SUMMARY

- Java Full Stack Developer with around 4 years of experience in designing and developing scalable web applications using Core Java, Java 8/11, and SQL for optimized performance.
- Proficiency in backend frameworks, including Spring Boot, Spring MVC, Hibernate, and Spring Security, for building robust and secure microservices architectures.
- Hands-on experience with J2EE technologies such as Servlets, JSP, JDBC, JSTL, and JavaBeans, ensuring efficient backend logic and seamless database interactions.
- Front-end development expertise using React.js, Angular, Vue.js, and Node.js, creating responsive and interactive user interfaces for enhanced user experience.
- Knowledge of web technologies like HTML, CSS, JavaScript, TypeScript, Bootstrap, AJAX, jQuery, JSON, and XML, ensuring dynamic and modern UI designs.
- Cloud computing experience with AWS and Azure, optimizing cloud deployments and infrastructure management.
- Proficiency in MySQL, PostgreSQL, Oracle, and MongoDB, ensuring efficient data storage, retrieval, and integrity.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Languages: Core Java, Java 8/11, SQL

Frameworks: Spring (MVC, Boot, Security), Microservices, Hibernate, JPA, JSF, React.JS, Vue.JS, Node.JS, Angular.JS

IDEs: NetBeans, IntelliJ IDEA, VS Code, Eclipse

J2EE Technologies: Servlets, JSP, JSTL, JavaBeans, JDBC, Java Mail

Web Technologies: HTML, CSS, JavaScript, TypeScript,

Bootstrap, jQuery, Ajax, JSON, XML

Cloud Tool/Application Server: AWS (VPC, EC2, S3, CloudFront, ELB), Azure, Apache Tomcat, IBM Web Sphere

Databases: MySQL, SQL Server, PostgreSQL, Oracle, MongoDB

Version Control/Other Tools: Git, GitHub, GitLab, Maven, Gradle, Jira, Jenkins, Junit, MS Excel, JMeter

Operating Systems: Windows, Linux, Mac

EXPERIENCE

Morgan Stanley, USA

Jan 2024 - Present

Java Full Stack Developer

- Engineered and deployed robust web applications using Java, Spring Boot, and Spring MVC, optimizing backend performance and ensuring seamless API integration with front-end frameworks.
- Developed dynamic and interactive front-end components using React.js, Angular, and Vue.js, enhancing user experience with improved responsiveness and optimized page load times.
- Integrated AWS services such as EC2, S3, Lambda, etc., improving application resilience and reducing infrastructure downtime.
- Enhanced database queries and schema design in MongoDB and PostgreSQL, improving data retrieval speed and reducing latency for high-traffic applications.
- Built and managed CI/CD pipelines using Jenkins, Docker, and Kubernetes, automating deployment processes and reducing system downtime.
- Ensured smooth version control and team collaboration through Git and Jira, maintaining project transparency and streamlined development workflows.

Nevina Infotech, India

Jan 2020 - Jun 2022

Java Full Stack Developer

- Integrated Agile practices into the development lifecycle, enhancing team collaboration and ensuring timely delivery of projects with iterative improvements.
- Delivered enterprise applications by leveraging Java 11 and Hibernate optimizing performance and enhancing system scalability.
- Industrialized backend services using JavaBeans and JPA, confirming efficient data processing and seamless integration with PostgreSQL, reducing query execution time by 30%.
- Constructed interactive front-end applications using Node.js and TypeScript, improving user experience and responsiveness.
- Designed and implemented RESTful APIs for seamless communication between microservices, improving system efficiency and reducing latency.
- Organized cloud-based solutions on Azure, ensuring high availability, auto-scaling, and optimized resource utilization.
- Optimized server configurations and load balancing with Apache Tomcat, improving application reliability and handling high traffic loads efficiently.
- Automated CI/CD pipelines with Jenkins and Docker, streamlining the deployment process and minimizing downtime.
- Managed project tracking and sprint planning with Jira, ensuring smooth collaboration across development teams.

EDUCATION

Master of Science in Computer Science

May 2024

George Mason University, Virginia, USA

Bachelor of Engineering in Computer Science and Engineering

Apr 2022

Anna University, Chennai, India
