

# Chitra Garlapati

Software Developer

+1(346)355-2995 ◇ lakshmigarlapati7@gmail.com ◇ LinkedIn@chitra

## SUMMARY

Software Developer with comprehensive experience in designing and implementing RESTful microservices and cloud integration. Developed advanced skills in SQL and PL/SQL for querying relational databases and managing large datasets. Passionate about obtaining problem-solving methods for challenging tasks.

## EDUCATION

**Masters in Computer Science**, University of Houston-Clear Lake, Houston, TX | (GPA: 3.75/4.0) Jan '24 — Dec '25

- Coursework: Advanced Operating Systems, DBMS, Concurrent Programming, Internet Protocols, Design Analysis and Algorithms

**BTech in Computer Science**, K L E F Deemed to be University, Guntur, India (GPA: 8.5/10 ) Jun '16 — May '20

- Coursework: Object Oriented Programming, Computer Networks, Software Engineering, Big Data Optimization

## EXPERIENCE

### Cognizant Technology Solutions

Chennai, India. [December 2019 - June 2021]

Full Stack Developer , Client: Global Hospital

- Designed foundation services for Patient Administration, Billing and Pharmacy Management functions for the hospital.
- Developed functionalities of Administration module for Allocating Registration, Recording Personal Details, Handling Hospital Admissions.
- Worked on Assigning Insurance Details, Recording Transfers within hospital and Creation of Discharge Summary.
- Gained hands-on experience in ETL development using Informatica Power Center to design and manage data integration workflows. Able to Perform comprehensive testing and validation on ETL workflows.

## PROJECTS

Hospital administration system

- Designed Database schema to store patient information.
- Handled CRUD operations for managing patient administration and pharmacy details by developing loosely coupled.
- Implemented service identification and Structured API proxies using Apigee Edge platform on developer portal.
- Enhance the response time from 1100ms to 400ms by implementing concurrency and minimizing time complexity of services.
- Creating PL/SQL stored procedures and functions to enforce the complex business logics for Facets Data Model.
- Executed adaptable and reliable microservices in java.
- Documenting an automated failure reporting system for merging and Implementation of unit and penetration tests.

University Course Portal, TechStack: HTML,CSS,Django

Mar '24 — May '24

- An Application that can register for courses, submit assignments, attend quizzes, view marks (cgpa), and availability of course materials more efficiently.
- Worked on modeling and Implementing objects for Frontend and Database. Including the complete DB structure, schema, entity relationships, and SQL queries for data insertion & retrieval.

City Bus Corporation, Tech Stack: SQL, DBMS principles, SQL queries

- A vehicle tracking system for the City Bus Corporation is designed and implemented. The device is embedded inside a vehicle whose position is tracked in real-time.
- Designed and Implemented the complete database structure, including the schema, entity relationships and SQL queries for data insertion & retrieval

## CERTIFICATIONS

**Data visualization with tableau**, Coursera

**Trailblazer Ranger**, Salesforce

**A Practical Introduction to Cloud Computing**, Udemy

## SKILLS

**Programming Languages** Python, Java 8, C, JavaScript, HTML

**Database Management** MySQL, PostgreSQL

**ETL Tools** Informatica PowerCenter, Informatica Intelligent Cloud Services (Data Integration)

**Development Tools** Android Studio, Microsoft Office, Adobe

**Soft Skills** CRM(Customer Relationship Management), Strong Writing and Oral, Problem Solving, Time Management
