Soft Skills: Detail-oriented, Teamwork, Communication, Problem-solving, and Organization

Languages: Spanish

RELEVANT EXPERIENCE

ASCH Painter and Converter

Aug. 2024 - May 2025

Project Co-Founder

WSU, Wichita, KS

- Led engineering solutions for shape tool artifacts using industry standard computer graphics algorithms, provided feedback in partner code reviews, and utilized Git to ensure proper version control in tandem with Unity.
- Led report writing and power point, stand-up, and Engineering Open House presentations to ensure accessibility for our open source project and meeting client and mentor criteria.
- Contributed to the development of UI and primarily developed UX in the project which had two versions, one in [Rust](#) with the SDL library and another in [C#](#) using Unity.

National Cyber League CyberSkyline Competition

Aug. 2024 - May 2025

Team Captain

WSU, Wichita, KS

- Competed in several cybersecurity skills and disciplines placing in the top 1100 and 1000 out of approximately 8500 solo participants in the [Fall 2024](#) and [Spring 2025](#) Individual Games respectively with perfect scores in log analysis, port scanning and reconnaissance.
- Placed in the top 250 out of ~5000 teams in the [Fall 2024](#) and [Spring 2025](#) Team Games with perfect scores in open source intelligence, log analysis, network traffic analysis, and password cracking.
- Communicated with two teams daily during organizing and ethical hacking including conflict resolution, scheduling, and strategizing.

RELEVANT PROJECTS

- Skyline Problem Visualizer written in Python with the Matplotlib library
- Full Stack Job Search Platform written in Python with SQLite3 and TKinter libraries and SQLite
- Three-body Problem Simulator written in JavaScript, HTML, and CSS
- Mouse/Keyboard Automation Software using Python with TKinter, Pynput, and Threading libraries

ACTIVITIES AND AFFILIATIONS

4x Dean's List, Wichita State University

Fall 2021, 2023, 2024, and Spring 2025

Member, Event Coordinator, Shocker Gaming Club (WSU)

Fall 2021 - Present

Member, Wichita Linux Users Group (WSU)

Fall 2024 - Present

Volunteer, Engineering Summer Camp (WSU)

July 2024

- Helped children develop problem-solving skills, practice the engineering process, and nurture interest in STEM using LEGO Mindstorms EV3 kits and practical challenges with other volunteers over two weeks.
