2562 Aisquith St, Baltimore, MD | (912) 220-2213 | ctmiddletonjr@yahoo.com

PROGRAM MANAGEMENT | DATA ANALYTICS | PROJECT COORDINATION

Results-driven project and data management professional with a strong background in data analytics, project execution, and stakeholder collaboration. Skilled in managing complex projects, analyzing data to inform decision-making, and delivering measurable improvements in efficiency and outcomes. Proven ability to lead cross-functional teams, develop streamlined processes, and ensure alignment with organizational goals. Seeking a project management or program management role to leverage expertise in coordinating resources, optimizing workflows, and driving successful project outcomes.

- Process Improvement
- Analytical Techniques
- Data Governance & Quality Assurance
- Structured Reporting
- Communication | Reporting
- Team Leadership
- Resource Allocation
- Problem Solving
- Technology Integration

OVERVIEW OF KEY ATTRIBUTIONS

- **Project Planning and Execution:** Possesses the ability to define project scope, objectives, and deliverables while creating actionable plans and ensuring successful completion within time and budget constraints.
- **Data Analysis, Visualization, and Reporting:** Proficiency in analyzing large datasets and presenting insights through tools like SQL, Power BI, Tableau, or Excel to support informed decision-making and strategic planning.
- **Information Management:** Demonstrated proficiency in entry, organization, and retrieval of data through simple and complex systems, database management, document management systems, information security, and data privacy.
- **Process Optimization:** Proven ability to proactively suggest and implement improvements to existing processes, ensuring more effective and efficient use of current tools and systems.
- **Stakeholder Collaboration:** Expertise in engaging and communication with internal and external stakeholders to provide reporting and recommendations to align with goals, address concerns, and ensure project success.

EDUCATION

Master of Business Administration, Specialization, Data Analytics | University of Baltimore | 2023

Bachelor of Arts, Business Administration, Concentration Accounting, Minor, Economics | Morehouse College | 2012

PROFESSIONAL EXPERIENCE

Baltimore Children and Youth Fund | Baltimore, MD (Hybrid)

4/2024 – 11/2024

Senior Data Integration Specialist (50 hrs. weekly)

- Led the design and implementation of data integration workflows across multiple systems, reducing data processing time by 30% and improving accuracy of reporting by 20%.
- Collaborated with cross-functional teams to conduct detailed analyses of complex functions and work processes surrounding data integration issues, ensuring 100% system uptime and seamless data transfer for critical operations.
- Managed end-to-end data migration projects for enterprise systems, delivering projects 10% ahead of schedule while maintaining compliance with data governance standards
- Applied evaluative methods and techniques in developing new organizational procedures to streamline operations within the BCYF grants management system
- Communicating verbally and in writing to present solutions to process issues.

Corner Alliance | Washington, DC/Baltimore, MD (Remote)

6/2023 – 3/2024

Consultant II (40 hrs. weekly)

- Supported operational execution for Broadband Equity Access Deployment (BEAD) and Digital Equity (DE) programs, contributing to the successful oversight of initiatives impacting 56 states and territories
- Consolidated and analyzed program data across national, regional, and state levels, streamlining leadership reporting processes by 30% and improving the accuracy of external communications
- Designed and maintained reporting templates and tracking tools, ensuring 100% compliance with program standards and enhancing data accessibility for over 20 team members
- Provided PMO support for recurring BEAD/DE meetings, coordinating materials and soliciting input from clients, leading to a 25% increase in meeting efficiency and actionable outcomes

Consultant II (Continued from page 1)

- Delivered program reporting, process design, and training support, driving operational improvements that reduced project bottlenecks by 15% and aligned deliverables with client expectations
- Communicating verbally and in writing to present findings of procedural analyses.

Peapod Digital Labs, LLC | Landover, MD (Remote)

9/2022 – 5/2023

Standard Analytics and Reporting Analyst (40 hrs. weekly)

- Delivered technical support for internal and external users via a Microsoft SharePoint-enabled help desk, resolving 95% of inquiries within service-level agreements.
- Designed and interpreted various custom reports using data warehouses and Power BI, providing actionable insights from metrics such as sales, margin, and market share to drive strategic decision-making across teams
- Collaborated cross-functionally with IT, Data Governance, and syndicated data vendors to ensure data integrity and functionality, reducing data discrepancies by 20%
- Translated complex datasets into presentation-ready documentation and actionable insights, improving executive reporting efficiency by 30%
- Facilitated training sessions for Power BI and Azure ICube, equipping 50+ users with the skills to independently navigate and analyze data platforms
- Communicating verbally and in writing to present reporting metrics to inform decision-making.

Arlington Public Schools | Arlington, VA

6/2022 – 8/2022

Excel Trainer (Contract)

- Contracted to provide basic Excel data management training to administrative staff of Arlington Public Schools Headquarters.
- Designed and developed basic operations and shortcuts curriculum for APS Administrative staff.
- Facilitated 8 training sessions weekly for 8-week contract, resulting in over 120 administrative staff participants.
- Designed knowledge-gained assessment to track effectiveness of training.
- Collaborated with Educational Technology leadership to determine needs for other training opportunities.

University of Maryland St. Joseph Medical Center | Townson, MD

5/2021 – 5/2022

Project Specialist (60 hrs. weekly)

- Standardized processes and implemented a Financial and Labor Dashboard using Power BI, Tableau, and Excel, streamlining departmental performance tracking and improving operational transparency by 25%
- Synthesized complex data from internal and external sources to create detailed reports and visual presentations, enhancing decision-making for research, recruitment, and grant proposals while ensuring regulatory compliance
- Counseled and advised Nursing Department Managers on methods and procedures, results of management surveys, management reports, and control techniques.
- Conducted system analyses to evaluate and implement new tools, optimizing functionality and aligning system capabilities with organizational needs, leading to a 20% increase in efficiency
- Developed comprehensive project management plans, including scope identification, task delegation, and progress analysis, while assisting in budget planning to align fiscal resources with strategic goals
- Facilitated cross-departmental collaboration with key stakeholders to ensure successful project execution, fostering effective communication across organizational levels and achieving 100% project deliverable compliance

Family League of Baltimore | Baltimore, MD

5/2019 - 4/2021

Data Impact Specialist (40 hrs. weekly)

- Collaborated with initiative partners to implement data quality procedures aligned with Results-Based Accountability, increasing compliance with program contracts by 20%
- Delivered on-site and virtual training, coaching, and technical assistance to program staff, improving data collection and reporting accuracy by 25%
- Conducted regular data audits and analyses using Microsoft Excel, Power Query, and Power Pivot, identifying and resolving data integrity issues to ensure 100% reporting accuracy
- Reported findings to leadership to advise plans for future training needs.
- Designed and executed geographical data mapping projects and investment impact analyses using ARCGIS, enhancing the organization's ability to visualize program impact

Data Impact Specialist (Continued from page 2)

- Supported networks in addressing data-centric challenges, driving improvements in administrative deliverables and strengthening decision-making through actionable insights

Family League of Baltimore | Baltimore, MD

10/2015 - 5/2019

Project Coordinator of Data & Evaluation (50 hrs. weekly)

- Oversaw a portfolio of 200+ funded partners, managing the collection, analysis, and synthesis of performance data to meet funding requirements, ensuring 100% compliance.
- Evaluated program data quality to determine training needs to communicate to management for skills improvement.
- Advised management on specific training needs based on evaluation of program data quality.
- Designed and developed curriculum for data quality training to enhance accuracy of data reporting and system proficiency for funded partners.
- Facilitated over 150 data quality training sessions annually, including advising and guiding participants on plans, schedules, methods, policies, and objectives.
- Evaluated funded partners to provide advice for needed upgrades to training sites and technology, level of instruction, and training staff so programs meet grant standards.
- Played a key role in the successful rollout of Family League's in-house data system, CHARM, improving data accessibility and reporting efficiency across stakeholders.
- Designed and developed instructional materials and curriculum for training of internal and external stakeholders including but not limited to Family League staff, funded partners, board members, and community members.
- Provided technical assistance to 500+ funded partner staff, resolving data-related challenges and fostering improved data management practices
- Created and facilitated feedback surveys administered through software applications such as Survey Monkey to assess the effectiveness of training, resulting in a 98% positive review rate across all stakeholders.
- Created geographical data mapping projects and investment impact analyses using ARCGIS, enabling data-driven decision-making and transparent visualization of funding impacts

Higher Achievement | Baltimore, MD

9/2014 – 11/2015

Senior Academy Coordinator (50 - 65 hrs. weekly)

- Assisted Director of Academy Center in implementation of program at Lakeland Elementary Middle School.
- Recruited, and maintained a full roster of scholars, resulting in a 40% increase in enrollment and retention by applying methods of analysis to attendance trends for scholars and effectively implementing attendance initiatives in accordance with Higher Achievement's recommended incentive systems.
- Recruited, trained, and managed team of adult center volunteers and mentors for mentor relationship development in accordance with Higher Achievement Mentor Curriculum.
- Developed a system to organize and match adult mentors with scholars to create a 3 to 1 scholar-mentor ratio across center utilizing Google Forms, Microsoft Excel, and some basic VBA coding.
- Coordinated and facilitated well planned, well-communicated, and well-attended center events, including the management of logistics for center staff and mentors for events such as the semi-annual scholar showcase and annual poetry competition and fundraiser.
- Server as Deputy Director of center in overall program operations, program management, data compilation, analysis, and reporting to stakeholders.

Higher Achievement | Baltimore, MD

9/2013 – 9/2014

Administrative Coordinator (40 hrs. weekly)

- Applied principles of analysis to determine efficient solutions to decrease costs associated with supply inventory and ordering for the Baltimore affiliate by 30%.
- As Interim Community Schools Coordinator, increased parent volunteer participation at Arundel Elementary School by 300% by effectively applying findings of participation surveys into programmatic solutions for parent volunteers.
- As Interim Manager of Grants and Administration, successfully completed the compilation and timely submission of Maryland State Department of Education grant application by gathering and assembling requirements as assigned in a timely manner.
- Collected and organized timely and accurate data for grant requirement submissions to Family League, MSDE, and other major funders throughout each grant cycle.

Administrative Coordinator (Continued from page 3)

- Developed, strengthened, and maintained strong and supportive relationships with affiliate partners, families, and school personnel through intentional and effective oral and written communication.

Higher Achievement | Baltimore, MD

7/2013 – 9/2014

Enrichment Instructor (25 hrs. weekly)

- Developed and implemented enrichment curriculum for middle grades students in accordance with Higher Achievement character development curriculum.
- Facilitated 3 enrichment courses daily for middle grades students, including initial instruction, activity-based application, and post-assessment of knowledge gained.
- Reported goal completion and progress of students as determined by Higher Achievement standards of excellence.

City Teaching Alliance (formerly Urban Teachers, Inc.) | Baltimore, MD

6/2012 – 6/2013

Resident Teacher (50 - 65 hrs. weekly)

- Completed Year 1 of CTA clinical residency as an assistant teacher in the Academy for College and Career Exploration in Baltimore City.
- Instructed middle grades mathematics, Algebra 1& 2, Geometry, and SAT Prep to over 150 students ranging grades 6 to 12 utilizing pedagogical methods of instruction to develop curriculum aligned with State of Maryland standards.
- Facilitated small group outcomes averaging in a full letter grade improvement for over 15 students by creating lesson plans based on analysis of student performance conducted.
- Proctored Maryland Middle School Assessment in preparation for district wide transition to Partnership for Assessment of Readiness for College and Careers assessment.

TECHNICAL COMPETENCIES

Statistical Analysis: Proficiency in Excel (VBA), SAaS, SQL

Data Visualization: Tableau, Power BI, StackerHQ, ArcGIS

Data Processing: ETL processes, Airtable, Data Integration processes, HTML, DAX
