

CONNOR CAIN

connorjacksoncain@gmail.com | (865) 978-4011 | Knoxville, TN 37921

Professional Summary

Resilient and adaptive professional transitioning from healthcare and technical event support into software engineering. Skilled in managing complex technology systems, leading high-performing teams, and solving problems under pressure. Founder of a successful entrepreneurial venture, with a proven ability to self-learn and apply technical skills across healthcare, education, and engineering contexts. Pursuing a B.S./M.S. in Software Engineering with a concentration in AI/ML at Western Governors University; eager to contribute technical expertise and leadership to an entry-level software engineering role.

Skills

- Python and Swift
- MATLAB and CAD
- Git and GitHub
- Adobe Creative Suite
- Microsoft 365
- Ion XE/EOS lighting software
- Audiovisual systems
- Networking fundamentals
- Data management and analysis
- Leadership and team management
- Workflow optimization
- Technical troubleshooting
- Client and executive support
- Project management
- Training and mentorship
- Patient care
- Critical thinking
- Artificial Intelligence and software development
