PROFESSIONAL EXPERIENCE

Uber Technologies, Inc. – Conversational Designer - Global Content (4/2025-7/2025)

Evaluate content and strategy for Uber NLP GenAI agentic agents, driving impactful customer & business solutions. Spearhead complex projects, provide feedback to influence and deliver content frameworks scaling globally.

- Audit & annotate metadata, captions, content systems, taxonomies, and information architecture principles.
- Write interface copy that drives clear, engaging, inclusive app experiences that align with quality standards.
- Engineer AI prompts, outputs, dialog flows, golden datasets to train LLMs to evaluate response quality.
- Label and leverage data, research, and feedback into decision-making processes to exceed business goals.
- Write and optimize SQL queries to extract and transform large datasets into clear, actionable insights.
- Identify and prioritize gaps, biases, and potential problem spaces, influencing teams through insights.
- Collaborate with stakeholders, designers, engineers, and product managers to deliver end-to-end solutions.

Publix Super Markets, Inc. – Senior AI UX Content Designer - Virtual Assistants (10/2021-1/2025)

Established and evolved AI & UX design process, information architecture, taxonomy, and AI content strategy for digital technology to deliver compelling and interactive multimodal customer and business solutions across devices.

- Wrote, fact-checked and copy edited web pages, headlines, email, marketing material for tone and AP style.
- Designed persona, voice & wrote scripts for NLP chatbots concept to launch; dropped call volumes 30%.
- Built Voiceflow maps, optimized conversation flows, integrated LLMs, fine-tune AI prompts in Dialogflow.
- Evolved UI/UX based on user research, target audience, best practices, usability testing and data insights.
- Established use cases and processes to intake new requests, address gaps and prioritize enhancements.
- Created rapid UI mockups and Figma prototypes to present ideas to stakeholders and engineering teams.
- Facilitated standups to discuss obstacles, successes, progress, roadmapping and sprint/scrums sessions.
- Defined critical metrics of success, created processes to track, maintain, interpret and report on analytics.
- Refined documentation and UX content based on updates, user interactions, trends & Google Analytics.

Publix Super Markets, Inc. – Corporate Communications Copywriter (5/2021-10/2021)

Wrote, copy edited and proofed Publix communications (internal and external) including blogs, newsletters, company emails, press releases, newswires and marketing campaigns for print and online distribution — adhering to strict nomenclature, WCAG and company guidelines.

- Created content management strategy to complete assignments and projects within tight pressure deadlines.
- Communicated daily with Publix Public Affairs team members to ensure a high-quality end product.
- Learned new applications and new technology to increase efficiency of department output.
- Effectively resolved issues by generating innovative solutions and creative ideas.
- Consistently exuded a positive and humorous attitude to promote strong team-building.

The Walt Disney Company – Lead Content Developer (2017-2020)

Developed interactive AI park applications, campaign materials, program ads, brochures, posters, in-signage, and print/digital media for globally recognized entertainment leader *The Walt Disney Company*. Edited layouts, grammar, illustrations — mastering A/B testing, quality assurance, copy editing and copywriting to deliver products with crisp, clean precision. Coordinated projects and mentored team of editors to reflect Disney's standards in style, language and quality.

- Created scripts and tested UX applications including interactive puzzles, games, quizzes, predictive Q&A and exercises promoting team-building that accompanied instructional eLearning and training materials for park experiences to ensure end-user satisfaction.
- Researched and developed 3 complete online learning programs in three weeks, achieving 100% spelling accuracy with zero grammar mistakes.
- Received “*Exceeds Expectations*” on annual performance assessments for meeting quality assurance standards in (1) proofreading print/digital content, (2) aligning content with AP Stylebook/Chicago Manual of Style, (3) managing copy editors and training on nomenclature/copyrighting standards and (4) reviewing PowerPoints and Keynotes for flow and consistency.
- Translator across content development department — distributing content in four languages (translating American English to Canadian and British; proofreading Spanish).

Orange County Public Schools – Test Developer / Copywriter (2015-2017)

Designed and reconstructed final exams for Orange County Florida School District — utilizing a broad range of teaching guides, rubrics, assessment tools and platforms to meet state testing requirements.

- Wrote testing publications used across district servicing 200 schools — delivered on time for EOY testing.
- Restructured HTML/CSS code used across hundreds of online exams, enabling testing teams to resolve compatibility issues with 100% success rate in record-breaking time.
- Maintained perfect editing record reviewing accuracy in layout, grammar, spelling and style on formal assessments.
- Developed 30+ teacher guides and rubrics for six schools complying with applicable state standards.

CoventBridge Group – Quality Control Editor (2014-2015)

Edited deliverables for widely recognized insurance leader. Compiled reports and digital images from scene investigations, reviewed training materials for accuracy and tailored layouts to ensure premier client experience.

- Aligned deliverables to meet client's expectations — maintaining 97% satisfaction rating, ensuring copy/visual tone and style were achieved according to copy concepts and agreements.
- Delivered error-free investigative reports — achieving flawless quality control record on 2 company audits.

SoftRock – Media Strategist / Copywriter (2013-2014)

Published persuasive advertising content, calls-to-action for landing pages and search engine optimization to drive online traffic for popular marketing and advertising agency known for creative and unorthodox work culture.

- Deployed profitable Facebook campaigns — generating up to \$50K in monthly revenue.
- Increased web traffic by 15% in two months by writing attractive articles and fact-checking for plagiarism.

Ivanhoe Broadcast News – Digital Editor / Associate Producer (2012-2013)

Authored engaging news scripts for television, web and print mediums for top-quality news station. Designed web banners, page layouts and programmed HTML/CSS web content to boost viewer engagement.

- Attracted national attention by writing captivating stories — achieving top ratings for 18 consecutive months.
- Developed weekly scripts and content distributed across local and national news outlets.

WOFL Fox 35 – Creative Services (2011-2012)

Drafted news articles and scripts for on-air talent for Fox-owned-and-operated television station in Orlando, Florida. Proofread and edited copy/video for digital/print distribution including content used across social media channels.

- Increased web page traffic and views by publishing impactful and highly edited content.
- Improved station rating average of five points from previous year by providing creative insight/strategy.

Crossmark – Marketing Team Leader (2010-2011)

Mentored, trained and retained a world-class team of marketing associates for high-ranking marketing companies within the consumer goods industry.

- Fueled sales growth for prominent Fortune 500 leaders *Walmart and Sam's Club*.
- Averaged 500% sales lift on featured products through strategic marketing.
