Summary

A seasoned Data Integrity Analyst with 10 years experience in a remote environment. I bring a robust background in detecting and resolving data discrepancies. I excel in database management and critical thinking. Leveraging my expertise in EPIC applications and a strong work ethic, I've significantly enhanced data integrity and quality control, positioning myself as a pivotal team player in healthcare data analysis.

Strong understanding of medical terminology, coding procedures, and data analysis techniques. Adaptable professional with a quick-learning ability and a talent for adjusting to new environments.
