Location: NYC Metropolitan Area | Open to global opportunities and relocate

Professional Summary

Full-Stack Developer & Entrepreneur with **5 years of experience** in full-stack development of experience building high-performance web applications across fintech, SaaS, marketplaces, and real-time betting platforms. Skilled in React, Next.js, Node.js, and cloud technologies, with a proven track record of delivering scalable, SEO-optimized, and user-focused solutions that help startups and businesses grow.

Technical Skills

React • Next.js (SSR/SSG) • Node.js • MongoDB • PostgreSQL • AWS • TypeScript • Tailwind CSS • Material UI (MUI) • Redux Toolkit • React Query • Framer Motion • Jest • React Testing Library

Professional Experience

CEO & Full-Stack Developer

Fusion Web Works (Self-employed), NYC Metropolitan Area

Mar 2025 – Present

- Spearheaded architecture, development, deployment, and client communication for a full-scale web project.
- Built application with Next.js (SSR & SSG), integrated API routes, middleware, and advanced routing.

- Implemented SEO & performance optimizations (lazy loading, schema markup, Next/Image).
- Developed CMS & Admin panel with role-based access, inline editing, and React Hook Form + Zod validation.
- Led client communication, requirements gathering, and iterative feedback cycles.

Frontend Developer

StreamTech, Bishkek City, Kyrgyzstan

March 2023 – February 2025

- Contributed to a **real-time betting platform**, delivering scalable, high-performance features used by thousands of active users.
- Migrated codebase from React 14 → React 18, unlocking concurrent features and improving rendering speed by **20%**.
- Optimized platform performance with lazy loading, code splitting, memoization, and virtualization, reducing page load time by **~30%**.
- Built a scalable UI component library with TypeScript, improving developer productivity and reducing code duplication by **40%**.
- Refactored legacy code to functional components with hooks, enhancing maintainability and cutting bug rates in refactored modules.
- Collaborated closely with backend engineers, QA, and designers in an Agile environment to ensure reliable real-time data delivery and seamless user experience.

Frontend Developer

DATAxWAY | Web & Mobile Development, Bishkek City, Kyrgyzstan

Feb 2022 – Feb 2023

Developed responsive web apps with React, Next.js, and TypeScript.

Built reusable UI components using MUI and Tailwind CSS.

Integrated REST APIs and optimized state management with Redux Toolkit + React Query.

Enhanced UX with Framer Motion animations.

Improved page load times by 30% and increased engagement by 20%.

Full-Stack Developer

Discovery Studio, Bishkek City, Kyrgyzstan

Feb 2021 – Feb 2022

- Developed proprietary UI library with React, React Native, Next.js, Tailwind CSS, and Ant Design.
- Developed a **marketplace platform** for price comparisons across e-commerce sites, integrating **NestJS APIs with MongoDB** for scalable data handling.
- Implemented advanced data parsing using Playwright.
- Collaborated with UX/UI designers and enforced SOLID, DRY, KISS, and YAGNI principles.
- Delivered Shamal, a high-impact mobile app with a growing user base developed on React Native

Education

Associate's Degree in Computer Science

Kyrgyz State Technical University, Bishkek, Kyrgyzstan — **2021**
