EMPLOYMENT

FINANCIAL ANALYST III, XO COMMUNICATIONS

2015 –PRESENT

- Accountable for monthly revenue data analysis and tracking of **EOM** financial data collection, processing and validation. Tracked revenue right from the billing system cycles to loading it into tables used for analysis
- Executed monthly and weekly scheduled tasks using **SQL and PL/SQL** procedures. Automated a good number of tasks using the tool **Toad Data Point**. Now, after automation, most of tasks occur at a single click
- Developed and maintained reports for different sets of financial data & for different report requirements using **Tableau**. Worked on complex requirements from various users across the company and published numerous efficient & important reports that aid users
- Operated with a sense of urgency to conduct data analysis to support senior leadership with major issues and excels in a high pressure environment
- Updated & identified areas that need additions and/or updates to streamline team **documentation**. Developed a tableau splash page as a common source to all the team documentation
- Responsible for vital tasks such as the **SAVS** (System Access Verification) audit and the **SWAC** (Switched Access) process. The SAVS audit involves the verification of the billing system access and captures management responses for user access. The SAVS audit is performed on a quarterly basis. The SWAC process is a monthly process to update the SWAC tables with any tariff changes

BUSINESS OPERATIONS ANALYST (INTERNSHIP), ERICSSON INC.

2014 – 2015

- Part of Region North America(RNAM) Engagement Practice Business Operations (EPBO) team as an Intern
- Responsible for sales forecast and target analysis with respect to each practice using MySQL & MS Excel for data extraction, PowerPoint for reports and Pivot and V-lookup and other MS excel operations for analytics/reporting
- Worked on various things with respect to SW sales such as **monthly business operations report(MBOR)**, RNAM SW Governance Slides, and **Sales to Delivery process** documentation of different customer units and various other analysis with respect to SW sales
- Developed the SW sales part of monthly generated report(MBOR) that is shared across different customer units, engagement practices and top level management

- Accountable to prepare **RNAM Governance Report** every month for internal purposes which stands as a base to the analysis needed for the MBOR
- Responsible for documenting the Sales to Delivery process for various customer units which helps in identifying gaps and flaws in the process
- Executed process improvement tasks with respect to the **EP Effectiveness Survey** and the SW Sales process

PROGRAMMER ANALYST, COGNIZANT TECHNOLOGY SOLUTIONS

2011 –2013

- Customer: T- Mobile Netherlands | Domain: Telecommunications | Nov 2011 – July 2013
- Developed and maintained code using PL/SQL and Mod PL/SQL
- Responsible for functional changes in frontend and backend based on customer requirement
- Prepared XML messages which helped communication between applications as a part of application development
- Executed first hand unit testing after development of each change or defect fix
- Carried out system testing in the system test environment for various test cases basing on the team's need
- Accountable for release management and production support when each frico goes live to production
- Received **Appreciation from T-Systems Nederland** for learning potential & sincere support during the delivery cycle and collaborative leadership abilities on the client side
