

Mohammad Montazerian

Address: 7 Cawthorne House, Dyke Road
Brighton, BN13GZ

Telephone: 07472103519

Email: mohamad@montazerian.com

Web Developer specializing in front end development. Experienced with all stages of the development cycle for dynamic web projects. Well-versed in abundant programming languages including PHP, JavaScript and SQL, Strong background in 3ds Max.

Interests

- User Interface (UI) and User Experiences (UX)
- Motion Capturing
- Virtual reality (VR) Augmented Reality (AR) Development Game Design and entertainment

Education

2017 – 2018 University of Kingston - London

MA Computer Animation

2015 – 2016 University of Sussex – Brighton

MSc Computing with Digital Media

Aiding A Web3d Application (MVC Framework) | The aim of this project is to develop a Web 3d website that tailor made of those people who want to learn about Persian instrument music over an online website. The project output will be an interactive web application that presents and demonstrates Persian music instrument using freely available web technologies, such as X3d, X3DOM, JavaScript, HTML5, PHP and CSS. The purpose is to familiarize user with Persian instruments. User will be able to see all the instruments as a 3D model and it is able to play the sound with some part of the body of items. For example, a user selects one part of the instruments, which leads to animated tutorial. (www.montazerian.com/finalproject).

2012 – 2015 University of Sussex – Brighton

BSC Computing for Business and Management

Aiding A Taxi App | Dissertation undertaken is to develop application that people at all over the world can use as part of their daily lives to help them quickly and efficiently retrieve their information, ranging from contact to address information, this application is called MyTaxi. MyTaxi is a mobile application that connects passenger and drivers at the touch of a button. You can track the arrival of your taxi and you will receive a notification when your driver arrives.

2011 – 2012 Bellerbys College – Brighton

Foundation Information Technology (IT)

Technical Skills

UI Design

- Storyboards, wireframes, paper prototyping, rapid prototyping, UML Diagrams

Environment

- 3Ds Max, Maya, Unity 3D, Microsoft Visual Studio, Sublime, Eclipse, Adobe Photoshop, Mogre, Android Studio, Microsoft Office, MySQL

Programming Languages

- PHP, JavaScript, HTML, CSS, Ajax, JSON, JQuery, C#, C/C++, Python, XML, X3D

UI Design

- Quantitative and qualitative usability evaluation, user studies

Statistics

- Unit testing (e.g. Junit) , interaction test, System testing, User testing

Work and Research Experience

Red Cross (Hellal Ahmar)

Tehran, Iran (September 2016 – Present) PART TIME

- Skills: MVC Framework, PHP, HTML, CSS, JavaScript, JSON, Ajax, Autodesk 3ds Max, Adobe Photoshop, MySQL, Bootstrap,
- Responsible for working on a range of different projects, designing appealing websites and application (front-end developers and Animation designer).

Web 3D Application Under Supervision of Dr Paul Newbury,

Informatics Department, University of Sussex, Brighton (June 2016 – August 2016)

(<http://www.montazerian.com/finalproject/user.html>)

- Skills: MVC Framework, PHP, HTML, CSS, JavaScript, JSON, Ajax, Autodesk 3ds Max, Adobe Photoshop, MySQL, Bootstrap,
- Design, Model and animate multiple istrument items
- Design and develop website (backend & Front-end developing)

- X3D
- Interacting with 3D items in website by using JavaScript
- Using MVC framework
- System Testing

Mobile 3D Application Under Supervision of Dr Martin White,

Informatics Department, University of Sussex, Brighton (January 2016 – June 2016)

- Skills: MVC Framework, PHP, HTML, CSS, JavaScript, JSON, Ajax, Autodesk 3ds Max, Adobe Photoshop, MySQL, Bootstrap,
- Design, Model and animate multiple museum items
- Design and develop website (backend & Front-end developing)
- Convert all 3ds max file (.VRML) to X3D
- Interacting with 3D items in website by using JavaScript
- Using MVC framework

Interactive 3D programming (3D Game) Under Supervision of Dr Sriram Subramanian,

Informatics Department, University of Sussex, Brighton (January 2016 – June 2016)

- Skills: C#, Mogre
- Design and develop the VR games to collaboration and 3D interaction
- Develop 3D game (including multiple levels)

Multimedia Design and Application Under Supervision of Dr Paul Newbury,

Informatics Department, University of Sussex, Brighton (January 2016 – June 2016)

- Skills: JavaScript, HTML, CSS, PHP, MySQL
- Develop a platform game on the virtual website

Design and Model Animation Under Supervision of Dr Marco Gilardi,

Informatics Department, University of Sussex, Brighton (September 2015 – December 2015)

- Skills: 3D Design and Modelling, Autodesk 3Ds Max
- Create a Storyboards for multiple animations
- Design and Model the objects for animations
- Animate animations by using 3ds max.

Web Design Company

Tehran, Iran (June 2015 – October 2015)

- Skills: PHP, Ajax, HTML, CSS, JavaScript, MySQL, JSON, Adobe Photoshop, Bootstrap
- Agile and Waterfall development methodologies
- Responsible for working on a range of different projects, designing appealing websites and interacting on a daily basis with graphic designers, back-end developers.
- Participating in discussion with clients to clarify what they want
- Developing and maintaining the front end functionality of website
- Created both HTML5/PHP websites.

Research on Hybrid Mobile Application Under Supervision of Dr Patrick Holroyd,

Informatics Department, University of Sussex, Brighton (September 2014 – May 2015)

- Skills: PHP, Ajax, HTML, CSS, JavaScript Adobe Photoshop, api, MySQL, Bootstrap
- Develop a hybrid mobile application based on the PHP languages (MyTaxi)

Narenjestan Real State

Tehran, Iran (June 2014 – September 2015)

- Compared properties with similar properties that had recently sold to determine competitive market prices
- Coordinate appointments to show homes prospective buyers
- Show residential properties and demonstrate the features and benefits of available flats
Sold a property & Rent 5 Properties
- Created a web interface front-end by using a combination of AJAX, JQuery, HTML and CSS.

Languages

- Fluent Farsi
- Arabic
- Fluent English
