MANAGEMENT & SUPERVISION

Flight Chief, *Security Forces / NCOIC, Field Training*

Led, managed, supervised Force Protection duties to protect personnel and resources; planned, executed, and oversaw daily operations—Command and Control Center, alarm activation, witness/suspect interview, armed response, accident investigations. Deployed to Afghanistan, lead 13 man team in order to establish initial Air Base Security operations/ security liaison supervising visits for diplomats. Oversaw day-to-day battlefield operations for new military recruits during Basic Military Training (BMT) program, including formulating personnel development, plans, policies, procedures, and logistics for operational program implementation at a \$33.5M+ 123-acre training site

- Established initial security employing 50 soldiers/14 coalition members/13 SF; laid foundation for Entry-Control-Point operations at new Forwarding Operating Base Shindand, Afghanistan, processed 3K vehicles/5K local nationals with zero incidents/security breaches.
- Led security planning for Secretary of the Air Force/numerous DV visits to Afghanistan, flawless execution ensured iron clad security/successful visit to hostile fire area.
- Developed Quick Reaction checklist; formalized operating procedures to improve SF ability to counter insurgent actions at Entry Control Point.
- Utilized long-term experience in the US Air Force to apply knowledge of aircraft and aviation security in an environment requiring keen attention to security protocol for restricted/controlled areas.

Training NCOIC, *Security Forces*

Managed processes to coordinate security/law enforcement training program for more than 250 classes. Handled planning and program implementation for seven programs to meet compliance standards. Oversaw Ready Augmentee training program to ensure increased Force Protection conditions met.

- Steered seven security program checklists/236 checklist items; 74 items rectified; rated in compliance with two strengths during Unit Compliance Inspection.
- Developed 2 Master training Plans; projected 52,000 training hours yearly, codified on-the-job training/upgrade training for 210 Security Forces members.
- Led Elite Guard Program/team; access control measures secured 4.5K personnel/visitors; efforts directly secured/protected Special Operations Headquarters infrastructure.

Physical Security, *Security Forces*

Served as key operational manager overseeing installation security programs and processes to meet protective measure regulations and guidelines across multiple functional areas. Handled administration and processing of security documents to include waivers, exceptions, and deviations for physical security requirements. Managed and coordinated schedules and itineraries for distinguished visitors to meet security requirements.

Selected Contributions:

- Completed 40-hr installation vulnerability assessment course; Antiterrorism Program and Antiterrorism Officer refresher Course through Defense Threat Reduction Agency.
- Security Forces Installation liaison; coordinated plans, prepared physical security enhancements for Integrated Base Defense Council; \$6.5B combat assets protected.
- Masterminded relocation for two aircraft onto new installation, completed risk assessment/established restricted area/identified security posting requirements, multi-billion dollar resources secured without incident.
- Strong Project Manager; procured \$30K for ballistic glass project, upgraded 2 Protection Level resource facilities, identified/remedied areas of weakness/vulnerability
- Planned/Coordinated all security access requirements for Command level exercise; processed/authenticated safe/secure entry/exit procedures for 1200+ personnel/200+ Entry-Authority-Lists for restricted areas.
- Spared no expense in leading those for whom responsible; exemplified leadership and inspired others to adhere to the highest standards of conduct following the Air Force Core Values—INTEGRITY FIRST, SERVICE BEFORE SELF,
