Experience

Optima Consulting LLC | USA
Senior Reporting Analyst / Risk Data Specialist
05/2024 - Current

- Built risk-scoring dashboards in Tableau and Power BI to monitor client credit exposures and operational loss events.
- Designed Alteryx workflows that calculated risk metrics (e.g. VAR, loss frequency) and automated alerts for threshold breaches.
- Performed data profiling on transaction and claims data to identify anomalies and support control remediation.
- Led requirement-gathering sessions with risk managers to define KRIs, tolerance levels, and reporting cadence.
- Documented end-to-end processes and implemented row-level security to ensure segregation of duties and regulatory compliance.

Communications & Allied Industries
Pension Fund | Harare, ZW
Senior Reporting Analyst (Power BI/Tableau)
06/2023 - 12/2023

- Partnered with actuarial and compliance teams to translate pension-fund risk requirements into interactive dashboards.
- Developed ETL pipelines to ingest contribution, benefit-payment, and investment data—profiling for completeness and consistency.
- Created “what-if” scenario models for asset allocation shifts, highlighting potential funding-ratio impacts under stress conditions.
- Standardized data-validation routines and reduced reconciliation errors by 45%.

Minerva Risk Advisors (formerly Aon
Zimbabwe) | Harare, ZW
Senior Reporting Analyst (Tableau Developer)
01/2015 - 01/2023

- Supported risk-management practice by visualizing client risk-assessment findings and control-gap analyses.
- Designed Alteryx-powered ETL for claims and underwriting data, calculating exposure metrics for property and casualty portfolios.
- Migrated legacy risk-reports into Tableau, improving load times by 60% and enabling real-time drilldowns on loss drivers.
- Facilitated stakeholder workshops to refine risk appetite statements and

translate them into measurable dashboard alerts.

- Authored process documentation, mapping dataflows and control points to support internal audits and regulatory reviews.
