SUMMARY

Proactive Software Engineer with 3 years of experience in data pipeline optimization and system integration. Implemented key service integrations using Java and Apache Kafka, enhancing data handling for real-time risk and PnL computations.

EXPERIENCE

Software Engineer

Macquarie

May 2023 - October 2025 , Houston, Texas

- Implemented key service integrations to streamline data pipelines for Risk and PnL computations, utilizing Java and Apache Kafka for improved data handling.
- Part of a team tasked with replacing a legacy PL system with an improved version native to platform.
- Refined backend workflow components by integrating robust Java modules, advancing system scalability and resilience for real-time risk and PnL computations.
- Provided real time support to end users across multiple divisions at Macquarie.
- Enhanced backend Java processing by implementing optimized algorithms, significantly reducing calculation times for derived measures and carry forwards.

Software Engineer

Wiley Edge contracting at Macquarie

May 2022 - May 2023 , Houston, Texas

- Wrote and deployed Java backend code for commodities and global markets real time profit/loss reporting system as a contracted software engineer.
- Part of a team tasked with replacing a legacy PL system with an improved version native to platform.
- Provided real time support to end users across multiple divisions at Macquarie.

ITS Help Desk

SUNY Polytechnic

September-December 2021 , Utica, New York

- Responded to support tickets, calls, and in person requests for IT support issues.
- Provided real time tech support to students, staff, and faculty.
- Configured hardware and software for campus users, ensuring seamless deployment and compatibility across multiple devices and platforms.

EDUCATION

B.S. Computer Science

SUNY Polytechnic Institute • Utica, New York • December 2021 • 3.33

AWARDS & HONORS

Eagle Scout

Boy Scouts of America • 2014

SKILLS

Java, C++, Javascript, Python

Linux, Tensorflow API, CI/CD via Bamboo, Atlassian suite, Kubernetes, MongoDB, and Apache Kafka
