Soft Skills: Detail-oriented, Organization Skills, Time Management, and Leadership

PROFESSIONAL EXPERIENCE

Keurig Dr Pepper, Frisco, TX

January 2025 – May 2025

Data Analyst Consumer Care Intern

- Managed and analyzed trends for consumer behavior data, primarily focused on consumer complaints for KDP's cold beverage consumption to identify new data processes
- Developed an interactive scorecard to track agent performance for KDP's third-party call center. Scorecard led to increased training for agents, increasing agent scores by 50% in 3 months.
- Created an interactive dashboard for data visualization focused on performance metrics for Consumer Care data. The dashboard led to a 20% increase in Agents closing cases and a 25% increase in productivity.
- Recommended increased utilization of automation for reporting within the daily operations of the consumer care team to reduce work by 35% each week.

Kids Against Hunger, Allen, TX

February 2021 – April 2021

Assembly Line Lead

- Managed the lead group of 20 volunteers for packaging activities
- Lead the restructuring of a new packaging supply chain process which lead to 70% by introducing process and structure and reduced overall timeline for complete packaging by 50% through new procedures

ACADEMIC PROJECT EXPERIENCE

City of Frisco Traffic Capstone Project

January 2025 – May 2025

- Developed a 20-slide presentation showcasing various dashboard visualizations created in Power BI, with the intent for potential updates for the city of Frisco's Traffic system.
- Compiled historical data on all traffic signals and intersections in the city over the course of 12 months from November 2023 to October 2024. Data cleaning and querying were completed using Python & MySQL Database.
- Our recommendation was to implement the current traffic system with the dashboard, as the dashboard provided a 40% increase in speed for data loading. Our team also recommended implementing cloud storage, as that would increase storage capacity by 75% over the next 5 years.

USDA Rural Development Project

March 2024 – May 2024

- Developed a 10-slide presentation highlighting investments in socially vulnerable communities (SVC).
- Compiled data on three U.S. states and three program areas, businesses, housing, and communities examined how investments have changed between the years 2012 to 2023.
- After analyzing our data visualizations, our recommendation is to increase spending by 30% on education and essential community facilities for the next 5 years.
