EDUCATION

Stevens Institute of Technology

Master of Science, Business Intelligence and Analytics, GPA:3.86

University of Mumbai

Bachelor of Engineering, Computer Engineering, GPA:3.2

Hoboken, NJ

May 2024

Mumbai, India

June 2021

EXPERIENCE

Community Dreams Foundation

Data Analyst

Remote

Aug 2024 – Present

- Retrieved and processed program data using SQL, identifying trends, helping optimize outreach strategies and enhance engagement by 25%
- Created reports and dashboards employing Tableau to track program performance, enabling better and data-driven decision-making

Stevens Institute of Technology

Graduate Teaching Assistant

Hoboken, NJ

Sept 2023 – May 2024

- Researched and formulated solutions to homework assignments, demonstrating a proactive approach to understanding course materials resulting in a consistent 95% or higher assignment grade average
- Assessed and graded assignments, quizzes, and exams in accordance with established grading criteria

Customer Shastra Pvt. Ltd

Data Analyst Intern

Mumbai, India

Feb 2022 – Aug 2022

- Analyzed CRM datasets from ITC, Marico, Unilever, and Reliance using MySQL and Salesforce, building Power BI dashboards, optimizing data-driven decisions by 20%
- Researched logistics operations of Delhivery, Gati, and DHL, identifying inefficiencies through ORM datasets and Salesforce reports, increasing operational efficiency by 15%

CyberBAAP(Bullying, Awareness, Action and Prevention)

Data Analyst Intern

Mumbai, India

Sept 2021 – Dec 2021

- Evaluated and studied more than 2000 cyber-crime complaints and generated a “Cyber Harassment Report 2021” for press and Government of India by utilizing Tableau as the Data Visualization Tool
- Guided victims of Cyber Bullying and Harassment and helped elevate mental condition of 27% complainants and helped reduce number of monthly complainants by 16%

PROJECTS

IPL Cricket Data Analytics | SQL, Machine Learning, Python, MS Excel, PowerBI

Aug 2024

- Queried and analyzed 4 seasons of IPL match data using SQL to identify key performance metrics, including highest scores, wickets, and batting/bowling averages
- Formulated a Random Forest Regressor model with 85% accuracy to predict highest run-scorer and determine optimal team composition for upcoming season leveraging Excel (Forecast, Trend) for trend analysis
- Designed and built interactive Power BI dashboards with dynamic filters, KPIs, and drill-through reports to visualize player performance trends, team comparisons, and season projections, enhancing decision-making with real-time insights

Predictive Model For Airbnb | Machine Learning, Python

Dec 2022

- Developed a predictive model for Airbnb for reviews per month by applying various machine learning models like Naïve Bayes, K-Means, Random Forest
- Utilized the Random Forest Regressor from the Scikit-Learn (sklearn) library for training and testing the models
- Evaluated model performance using regression metrics, achieving an impressive accuracy of 99.7%

TECHNICAL SKILLS

Programming: C, C++, Python, HTML, CSS, R

Tools: MS Excel (Pivot tables, XLOOKUP), Tableau, PowerBI, MS Office, Salesforce, Google Collab, Jira, RStudio, Jupyter

Databases and Big Data Platforms: MySQL, PostgreSQL, PgAdmin, MongoDB, Databricks

CERTIFICATIONS

Data Visualization with Power BI – Great Learning

Aug 2024

Introduction to Tableau – DataCamp

Dec 2022

Analyzing Data in Tableau – DataCamp

Dec 2022

LEADERSHIP

Led a blood drive at Shubhada Polymers, securing 220 donations for COVID-19 patients

Oct 2021

Orchestrated an organic farming drive in Vangani, teaching 100+ farmers composting and pest control

Dec 2023
