

YASASWI KATTAMANCHI

+1(971) 341-5607 | ykattama@charlotte.edu | www.linkedin.com/in/yasaswi-kattamanchi

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience in ETL pipeline development, data migration, and cloud architectures. Skilled in Python, SQL, Tableau, and Power BI for data analysis and insights. Experienced in improving workflows and using cloud technologies to enable data-driven decisions and address business challenges.

EDUCATION

University of North Carolina at Charlotte, Charlotte, NC August 2023 – December 2024
Master of Science in Information Technology (**GPA: 3.9/4.0**)
Relevant Courses: Illustrative Visualization, Big Data, Database Systems, Applied Database Systems

TECHNICAL SKILLS

Programming Languages:	Python, Java, SQL, R Programming, UNIX Scripting
Databases:	MySQL, Oracle, Snowflake
Cloud Technologies:	Google Cloud Platform, AWS (S3, CloudWatch, EC2, Lambda), Microsoft Azure
Reporting Tools:	Tableau, Power BI
Data Analysis & Collaboration:	Jupyter, Google Colab
Project Management:	Jira, BMS Remedy, ServiceNow, SharePoint
Tools & Frameworks:	GitLab, IBM WebSphere MQ, Kafka,

WORK EXPERIENCE

University of North Carolina at Charlotte, Charlotte, NC
Sport Analytics Intern August 2024 – December 2024

- Improved data reliability by 50% through cleansing initiatives, supporting strategic decision-making.
- Delivered actionable insights via Python and SQL-based analysis for coaching and operational enhancements.
- Developed Tableau dashboards that improved performance tracking and increased operational efficiency by 25%.

Accenture, Hyderabad, INDIA
Associate Engineer July 2021 – August 2023

- Collected, cleaned, and organized data, improving overall data quality by **30%** and ensuring readiness for accurate analysis.
- Designed and developed dashboards in Power BI and Excel, streamlining data interpretation and decision-making, resulting in a **25% reduction in analysis time**.
- Collaborated with stakeholders to understand data requirements and deliver tailored solutions, enhancing operational workflows and achieving a **20% improvement in process efficiency**.
- Conducted data validation and quality checks, reducing inconsistencies and improving reliability by 25%.
- Identified patterns and correlations in datasets using statistical tools to provide actionable business insights.
- Ensured compliance with corporate data standards, maintaining data security and consistency, reducing data discrepancies by **25%** and mitigating security risks.

PROJECTS

Amazon Prime TV Shows and Movies Dashboard: Power BI, SQL, CSV

- Streamlined data analysis and visualization with Power BI and Python, achieving a **30% improvement in reporting efficiency** and **15% enhanced user engagement** through interactive dashboards and advanced metrics analysis.
- Built charts for yearly trends, ratings, and genre analysis, adding slicers, navigation buttons, and a logo, which enhanced functionality and aesthetics, leading to a **20% increase in dashboard usability**.

Data Recording, Cleaning, Analysis, and Visualization: Python, Jupyter, Notebook, Pandas, Matplotlib

- Collected and cleaned data using Python, standardizing datasets and removing unnecessary columns, resulting in a **30% improvement in data accuracy** and **20% efficiency gain in analysis preparation**.
- Built interactive dashboards with slicers and data validation features, integrating additional files, which improved insight accuracy by **15%** and reduced data errors by **10%**.
