SUMMARY

Data Analyst with experience in executing automated ETL processes, leveraging predictive analytics, and developing data visualizations using R, Python, SQL, and Tableau. Proven track record in reducing analysis time and enhancing business insights through machine learning techniques. Skilled in data manipulation, statistical analysis, and dashboard creation to support organizational decision-making.

SKILLS

Arabic • Boosting • Competitive Analysis • Dashboards • Data Analysis • Data Cleaning • Data Integration • Data Warehousing • DCF • English • Etl • Excel • Financial Analysis • Financial Modeling • French • Frontend Development • German • GitHub • M&A • Machine Learning • Market Research • Neural Networks • Predictive Modeling • Python • R • Sap • SQL • Tableau • TensorFlow • Tml • Data Visualization • Statistical Analysis • Critical Thinking • Problem Solving • Communication • Attention to Detail • Time Management • Pandas • Problem-Solving • SQL Proficiency • Excel Expertise • Python Programming • Communication Skills

WORK EXPERIENCE

Actfore

Reston, VA

Jr. Data Analyst

Apr 2025 – June 2025

- Conducted data mining activities for a cybersecurity team, focusing on scanning, reviewing, and extracting information from various electronic files.
- Supported companies experiencing data breaches or compromised business emails by providing critical data analysis.
- Used of Python to conduct machine learning algorithms to extract important information.
- Imported extracted data into Microsoft Excel spreadsheets for further analysis and reporting.
- Reviewed diverse documents, including customer licenses, insurance forms, tax forms, and medical history, to ensure comprehensive data capture.

Brightly

Washington DC

Capstone Consultant

Jan 2024 – Aug 2024

- Executed automated ETL processes on large datasets, reducing lead times by 25%.
- Applied predictive analytics and machine learning techniques, including Boosting, to analyze over 30 variables, decreasing analysis time by more than 50%.
- Facilitated data collection across multiple departments, leveraging R, Python, SQL, and Tableau for data manipulation and visualization to support organizational transitions.
- Developed and delivered bi-weekly dashboards and data visualizations for clients, enhancing business insights through the use of R, Python, and Tableau.

Schindler AG

Lucerne, CH

Summer Intern

Mar 2020 – Aug 2020

- Conducted market research and competitive analysis to identify growth potential in escalator product lines, aiding strategic planning initiatives.
- Performed financial analysis for mergers and acquisitions to support informed decision-making on potential business expansions.
- Developed financial models using Excel and DCFs to evaluate company valuations and assess digital transformation strategies.
- Participated in a business efficiency improvement program to enhance operational effectiveness over multiple months.

Swisscom

Bern, CH

Summer Intern

Jun 2018 – Sep 2018

- Collaborated with the reporting team to design customized front-end interfaces for monthly performance outcomes, incorporating data-driven insights through predictive modeling and machine learning applications.
- Facilitated the transition from SAP to TM1, enhancing data reporting capabilities for global partners.

EDUCATION

American University	Washington DC, USA
Masters in Science, Analytics	Aug 2024
EU Business School	Montreux, CH
Bachelor of Arts, Business Administration	Jul 2016

CERTIFICATIONS

IBM Data Science Professional , IBM	2025
-------------------------------------	------

PERSONAL PROJECTS

- Performed personal projects utilizing available datasets in Global Gadget consumption, Breast cancer diagnoses, and supply chain.

- Data cleaning, Data visualization and Descriptive Statistics using both R and Python.
- Utilized ML algorithms to conduct predictive insights, Random forest, Logistic regression, K-nearest and Support vector machine.
