

Datvi Panchal

BUSINESS ANALYST

Indiana, USA | (551) 465-6090 | reachdatvipanchal@gmail.com | [LinkedIn](#)

SUMMARY

- **Business Analyst** with **4+ years** of experience in bridging the gap between business needs and technical solutions. Proficient in eliciting, documenting, and analyzing business requirements using tools like **JIRA**, **Confluence**, and **Microsoft Visio**, ensuring alignment with business goals and stakeholder expectations.
- Skilled in data manipulation and visualization using **SQL**, **Excel (pivot tables, macros)**, and tools like **Power BI** and **Tableau** to generate actionable insights and optimize business performance.
- Expertise in analyzing current business processes and redesigning workflows using methodologies such as **BPMN**, **Lean Six Sigma**, and frameworks like **Agile Scrum** to enhance operational efficiency.
- Adept at facilitating cross-functional collaboration, conducting stakeholder interviews, leading workshops, and preparing clear documentation like **BRDs**, **FRDs**, and **user stories**.
- Experienced in bridging business and technical teams with knowledge of **ERP systems** (e.g., **SAP**, **Oracle**), CRM platforms (e.g., **Salesforce**), **APIs**, and **system integration**, ensuring seamless implementation of technical solutions.

SKILLS

Methodology:	SDLC, Agile, Waterfall, Kanban
Programming Languages:	Python, R
Database Management:	SQL, MS XS, MS Excel, Requirements Traceability Matrix (RTM)
Documentations:	FRD, BRD, SRS, User Guide, User Stories, Use cases
Project Management Tools:	MS Project, MS Excel, MS SharePoint, Asana, Trello, Rally
Visualization Tools:	Tableau, Power BI,
Business Analysis:	Cost/benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
Tracking Tools:	Jira, HP Quality Center, Rational ClearQuest, RTM
Cloud Computing Platforms:	AWS, Azure
ERP Planning & CRM:	SAP, MS Dynamics Nav, Salesforce, HubSpot
Technical Skills:	KPI, UAT, Test Plans, Alteryx, Requirement gathering, Google Analytics, Data Analysis, MS Visio, JAD, MS 360, Web XP, Software development & testing, Data Modelling, Database Knowledge, Business Intelligence (BI) Tools, Process Mapping, User Experience (UX) Understanding, Quality Assurance (QA) Knowledge, Prototyping
Soft Skills:	Time management, Leadership, Management, Problem-solving, Negotiation, Decision-Making, Documentation, and Presentation, Verbal communication, Sprint Planning

EXPERIENCE

Business Analyst | Elevance Health, MD

Oct 2023-Present

- Led a process improvement initiative to optimize workforce administration and staff scheduling systems, resulting in a 20% reduction in scheduling errors, 15% decrease in overtime costs, and 25% improvement in resource utilization through predictive scheduling dashboards in Power BI and Python.
- Collaborated with cross-functional teams to gather and document over 120 business requirements, translating them into functional specifications: reduced reporting cycle time by 35% using SQL and Power BI.
- Designed and implemented star and snowflake schemas in the HR data warehouse, improving ad-hoc query performance by 50% and reducing average report generation time from 8 minutes to 3 minutes.
- Established data quality frameworks aligned with HIPPA and GDPR standards, increasing payroll and benefits data accuracy by 15% and reducing compliance issues.
- Executed UAT plans for multiple system enhancements, identifying 95% of critical issues pre-deployment and cutting post-launch defect rate by 40% using JIRA and Excel.
- Oversaw configuration and optimization of HR, payroll, and benefits systems; reduced payroll processing time from **10 hours to 6 hours** and improved ETL data consistency by **20%** using **SSIS** and optimized SQL validations.
- Re-engineered workflows through business process analysis in Visio, increasing task turnaround time by 30% and improving cross-team coordination.
- Automated monthly financial and workforce reporting processes, saving 20+ hours per month, and delivered real-time KPI scorecards using Power BI that improved executive decision-making speed by 30%.

- Partnered with Data Engineering teams to deploy ETL workflows via Azure Data Factory, increasing data availability for analytics by 60% and reducing pipeline failures by 70%.
- Performed root cause and trend analysis using Python (Pandas, NumPy) and Power BI, identifying inefficiencies that led to a 20% boost in productivity and 12% increase in SLA adherence.

Business Analyst | Infosys, India

Jun 2020-Aug 2022

- Gathered and analyzed business requirements for enhancing the functionality and user experience of an e-commerce platform, translating stakeholder needs into detailed user stories and functional specifications.
- Developed and implemented data-driven e-commerce strategies using SWOT analysis and KPI tracking to optimize website performance, resulting in a 15% increase in online sales and improved user engagement.
- Collaborated with cross-functional teams (IT, marketing, product management) to align project deliverables with business goals, using process modeling techniques (BPMN, flowcharts) to improve workflow efficiency by 20%.
- Conducted gap analysis between current and desired e-commerce capabilities by evaluating consumer behavior and market trends, identifying opportunities for product enhancements and campaign improvements, leading to a 12% increase in conversion rates.
- Proposed and facilitated the integration of AI-driven personalization engines and payment gateway upgrades, preparing business cases and cost-benefit analyses to support technology investment decisions.
- Led A/B testing initiatives and used tools like Google Analytics and Tableau to identify performance bottlenecks and drive UX/UI improvements, reducing site load time by 30%.
- Monitored key performance indicators (KPIs) through real-time dashboards and regular reporting, recommending iterative strategy adjustments to enhance platform effectiveness and customer satisfaction.
- Created comprehensive Business Requirement Documents (BRD) and Functional Requirement Documents (FRD), and delivered stakeholder presentations summarizing consumer insights, trends, and strategic recommendations.
- Coordinated with IT and marketing teams to implement multi-channel marketing and mobile-first design strategies, using agile methodologies to increase mobile traffic by 25%.
- Ensured e-commerce compliance with GDPR and CCPA regulations by conducting regular audits and updating internal policies, maintaining platform security and legal adherence.

Artificial intelligence intern | Ultria software Pvt. Ltd., Bangalore, India

Jan 2020-May 2020

- Designed and implemented AI models for text classification and image analysis, improving image classification accuracy by 85%.
- Developed a Handwritten Text Recognition System using TensorFlow, streamlining the process of digitizing paper-based contracts.
- Assisted in aligning AI solutions with business goals and collaborated on promotional materials to support product marketing initiatives.

EDUCATION

Master of Science in Information Systems

– DePaul University, Chicago

Bachelor of Technology in Computer Science

– Pandit Deendayal Energy University, Gujarat, India

PROJECTS

Business Intelligence Project

- Developed an interactive Tableau data sheet for Chicago crime rates to inform decision-making with comprehensive crime category and related statistics.

SAP Enterprise System

- Built an ERP SAP Client Integrated business solution for a company.

Analyzed data and managed renewable energy source website.

- A Scrum board was established, and management tactics were implemented to tackle group concerns.

CETIFICATIONS

- Project management principles and practices: initiating and planning projects (Coursera)
- Strategic leadership and management: foundation of daily leadership (Coursera)
- Internet of things held by national program on technology enhance learning (NPTEL)
- UI/UX design: visual effects for user interface design (Coursera)
