

Deekshetha Srinivasan

Seattle, WA | +1 (857) 413-9467 | deekshethasrinivasan@gmail.com | LinkedIn

Education

University of Massachusetts Boston

Master's Degree in Business Analytics

May 2024

GPA: 3.4

Anna University, Chennai

Bachelor of Engineering in Computer Science

Jun 2022

GPA: 3.5

Skills

Tools & Technologies: Python, R, SQL, C, PHP, HTML, CSS, MS Excel (pivot tables, Vlookup, filters, linear regression), PowerBI, QuickSight, Tableau, Kibana, Visio, ETL, NoSQL, MySQL, PostgreSQL, Oracle, Redshift, Elasticsearch, NumPy, Pandas, Scikit-learn, Flask, Matplotlib, ggplot, Anaconda, Jupyter Notebook, XAMPP, VMware

Technical Expertise: Data Analysis, System Performance Analysis, Database Management, Data Visualization, Dashboards, Demand Forecasting, Technical Problem Solving, Data Cleaning, Data Merging, Data Manipulation, Statistical Analysis (T-test, Chi-squared, Hypothesis testing, Regression Analysis, Time series analysis), Root Cause Analysis

Business Capabilities: Project Management, Strategic Decision Making, Process Optimization, Operational Metrics, KPI Monitoring, Predictive Modeling, Business Insight, Workflow Automation, Lean Manufacturing, S&OP, Process Design, Material Flow Optimization, Supply Chain Optimization

Professional Experience

Data Analyst

Community Dreams Foundation

Sep 2024 – Present

Florida

- Developed automated frameworks to report and monitor compliance metrics for stakeholders
- Designed self-service dashboards using Tableau and Power BI for timely and accurate metrics reporting
- Improved data quality through tracking systems, data migration, profiling, ETL processes, and source-target validation
- Analyzed root causes and defect trends, optimizing data collection systems to improve efficiency by 20% while enhancing accuracy

Data Analyst Intern

VCodeM

Jul 2021 – May 2022

India

- Analyzed sales and customer ratings data to identify revenue patterns and growth opportunities
- Built Tableau/Excel dashboards to visualize KPIs and communicate insights to stakeholders
- Improved customer experience on online ordering platform, resulting in 20% revenue increase
- Collaborated with cross-functional teams to translate business requirements into technical specifications
- Performed exploratory and root cause analysis on the recently launched online ordering platform

Business Development Intern

Zedd labz

Jan 2021 – Jun 2021

India

- Conducted statistical and correlation analysis on client interactions using Power BI and Excel
- Created automated reports in Tableau to visualize insights and patterns
- Delivered tailored solutions to meet client's specific needs, provided continuous customer support
- Achieved 30% increase in proposal acceptance rates through data-driven strategies

Projects

Investment Portfolio Performance Analysis

Dec 2023

- Built Python-based portfolio analytics system to evaluate risk metrics and benchmark returns against market indices
- Generated investment insights through time-series analysis, portfolio optimization, and visualization
- Automated data collection, return calculation, and risk assessment workflows, reducing manual effort by 40%

Data Analysis using Elasticsearch

Nov 2023

- Designed and created Elasticsearch cluster to store Boston Government Employee Earnings data
- Developed Python scripts to automate CRUD operations for Elasticsearch data indexing and querying
- Created Kibana dashboards to visualize trends and monitor data integrity

Streaming Platform Analysis

May 2023

- Developed predictive models for streaming platform behavior using large-scale datasets of movies and TV shows (>100K entries)
- Implemented automated feedback loops improving content relevance by 10%
- Enhanced data visualization practices by building scalable dashboards using Tableau
